MONTANA
Department of Public Health & Human Services

Introduction

Thank you for your willingness to serve clients of the Montana Medicaid program and other medical assistance programs administered by the Department of Public Health and Human Services.

Manual Organization

This manual provides information specifically for outpatient hospital services.

Each chapter has a section titled *Other Programs* that includes information about other Department programs such as the Mental Health Services Plan (MHSP) and the Children's Health Insurance Plan (CHIP). Other essential information for providers is contained in the separate *General Information For Providers* manual. Each provider is asked to review both the general manual and the specific manual for his or her provider type.

A table of contents and an index allow you to quickly find answers to most questions. The margins contain important notes with extra space for writing notes. There is a list of *Key Contacts* at the beginning of each manual. We have also included a space on the back side of the front cover to record your Medicaid Provider ID number for quick reference when calling Provider Relations.

Manual Maintenance

Manuals must be kept current. Changes to manuals are provided through notices and replacement pages. When replacing a page in a manual, file the old pages and notices in the back of the manual for use with claims that originated under the old policy.

Providers are responsible for knowing and following current laws and regulations.

Rule References

Providers must be familiar with all current rules and regulations governing the Montana Medicaid program. Provider manuals are to assist providers in billing Medicaid; they do not contain all Medicaid rules and regulations. Rule citations in the text are a reference tool; they are not a summary of the entire rule. In the event that a manual conflicts with a rule, the rule prevails. Links to rules are available on the Provider Information website (see *Key Contacts*). Paper copies of rules are available through Provider Relations and the Secretary of State's office (see *Key Contacts*). In addition to the general Medicaid rules outlined in the *General Information For Providers* manual, the following rules and regulations are also applicable to the outpatient hospital program:

- Code of Federal Regulations (CFR)

    - 42 CFR 419 Prospective Payment System for Hospital Outpatient Department Servcies
- Montana Codes Annotated (MCA)
    - MCA 50-5-101 - 50-5-1205 Hospitals and Related Facilities
- Administrative Rules of Montana (ARM)
    - ARM 37.86.3001 - 37.86.3025 Outpatient Hospital Services

Claims Review (MCA 53-6-111, ARM 37.85.406)

The Department is committed to paying Medicaid provider's claims as quickly as possible. Medicaid claims are electronically processed and usually are not reviewed by medical experts prior to payment to determine if the services provided were appropriately billed. Although the computerized system can detect and deny some erroneous claims, there are many erroneous claims which it cannot detect. For this reason, payment of a claim does not mean that the service was correctly billed or the payment made to the provider was correct. Periodic retrospective reviews are performed which may lead to the discovery of incorrect billing or incorrect payment. If a claim is paid and the Department later discovers that the service was incorrectly billed or paid or the claim was erroneous in some other way, the Department is required by federal regulation to recover any overpayment, regardless of whether the incorrect payment was the result of Department or provider error or other cause.

Getting Questions Answered

The provider manuals are designed to answer most questions; however, questions may arise that require a call to a specific group (such as a program officer, Provider Relations, or a prior authorization unit). The list of *Key Contacts* at the front of this manual has important phone numbers and addresses pertaining to this manual. The *Introduction* chapter in the *General Information For Providers* manual also has a list of contacts for specific program policy information. Medicaid manuals, notices, replacement pages, fee schedules, forms, and much more are available on the Provider Information website (see *Key Contacts*).

Covered Services

General Coverage Principles

Medicaid covers almost all outpatient hospital services when they are medically necessary. This chapter provides covered services information that applies specifically to outpatient hospital services. Like all health care services received by Medicaid clients, these services must also meet the general requirements listed in the *Provider Requirements* chapter of the *General Information For Providers* manual.

Hospital outpatient services (ARM 37.86.3001)

Outpatient hospital services are provided to clients whose expected hospital stay is less than 24 hours. Outpatient services include preventive, diagnostic, therapeutic, rehabilitative, and palliative care provided by (or under the direction of) a physician, dentist, or other practitioner as permitted by federal law. Hospitals must meet all of the following criteria:

- Licensed or formally approved as a hospital by the officially designated authority in the state where the institution is located
- Meet the requirements for participation in Medicare as a hospital

Services for children (ARM 37.86.2201 – 2221)

The Early and Periodic Screening, Diagnosis and Treatment Program (EPSDT) is a comprehensive approach to health care for Medicaid clients ages 20 and under. It is designed to prevent, identify, and then treat health problems before they become disabling. Under EPSDT, Medicaid eligible children may receive any medically necessary covered service, including all outpatient hospital services described in this manual. All applicable PASSPORT To Health and prior authorization requirements apply.

Non-covered services (ARM 37.85.207 and 37.86.3002)

The following is a list of services not covered by Medicaid. Some of these services may be covered under the EPSDT program for children age 20 and younger based on medical necessity or for individuals covered under the Qualified Medicare Beneficiary (QMB) program (see the *Eligibility* chapter in the *General Information For Providers* manual).

- Acupuncture
- Chiropractic services
- Dietician/nutritional services
- Massage services
- Dietary supplements

- Homemaker services
- Infertility treatment
- Delivery services not provided in a licensed health care facility unless as an emergency service
- Outpatient physical therapy, occupational therapy, and speech therapy services that are primarily maintenance therapy. Providers should refer to the *Therapy Services* manual available on the Provider Information website (see *Key Contacts*).
- Outpatient hospital services provided outside the United States
- Naturopath services
- Services provided by surgical technicians who are not physicians or mid-level practitioners
- Services considered experimental or investigational
- Claims from outpatient hospitals for pharmaceuticals and supplies only
- Reference lab services. Providers may bill Medicaid only for those lab services they have performed themselves.
- Exercise programs and programs that are primarily educational, such as:
  - Cardiac rehabilitation exercise programs
  - Pulmonary rehabilitation programs
  - Nutritional programs
  - Independent exercise programs (e.g., pool therapy, swim programs, or health club memberships)
- Services provided to Medicaid clients who are absent from the state, with the following exceptions:
  - Medical emergency
  - Required medical services are not available in Montana. PASSPORT approval is required and prior authorization may also be required for certain services (see the *PASSPORT and Prior Authorization* chapter in this manual).
  - If the Department has determined that the general practice for clients in a particular area of Montana is to use providers in another state
  - When out-of-state medical services and all related expenses are less costly than in-state services
  - When Montana makes adoption assistance or foster care maintenance payments for a client who is a child residing in another state
- Services that are not medically necessary. The Department may review for medical necessity at any time before or after payment. The Medicaid client is financially responsible for these services and the Department recommends the client agree in writing before the services are

provided. See *When to Bill a Medicaid Clients* in the *Billing Procedures* chapter of this manual.

- Donor search expenses
- Autopsies
- Medicaid does not cover services that are not direct patient care such as the following:
  - Missed or canceled appointments
  - Mileage and travel expenses for providers
  - Preparation of medical or insurance reports
  - Service charges or delinquent payment fees
  - Telephone services in home
  - Remodeling of home
  - Plumbing service
  - Car repair and/or modification of automobile

Use the current fee schedule for your provider type to verify coverage for specific services.

Importance of fee schedules

The easiest way to verify coverage for a specific service is to check the Department's fee schedule for your provider type. In addition to being listed on the fee schedule, all services provided must also meet the coverage criteria listed in the *Provider Requirements* chapter of the *General Information For Providers* manual and in this chapter. Use the current fee schedule in conjunction with the more detailed coding descriptions listed in the current CPT-4 and HCPCS Level II coding books. Take care to use the fee schedule and coding books that pertain to the date of service. Current fee schedules are available on the Provider Information website (see *Key Contacts*). For disk or hard copy, contact Provider Relations (see *Key Contacts*).

Coverage of Specific Services (ARM 37.86.3002)

The following are coverage rules for specific hospital outpatient services.

Abortions (ARM 37.86.104)

Abortions are covered when one of the following conditions is met:

- The client's life would be endangered if the fetus is carried to term.
- The pregnancy is the result of rape or incest.
- The abortion is determined by the attending physician to be medically necessary, even if the client's life is not endangered if the fetus is carried to term.

A completed *Medicaid Recipient/Physician Abortion Certification* (MA-37) form must be submitted with every abortion claim or payment will be denied (see *Appendix A: Forms*). Complete only one part (I, II, or III) of this form; the part used must be clearly indicated on the form. This form is the only form Medicaid accepts for abortion services.

When using mifepristone (Mifeprex or RU 486) to terminate a pregnancy, it must be administered within 49 days from the beginning of the last menstrual period by or under the supervision of a physician who:

- Can assess the duration of a pregnancy.
- Can diagnose ectopic pregnancies.
- Can provide surgical intervention in cases of incomplete abortion or severe bleeding, or can provide such care through other qualified physicians.
- Can assure access to medical facilities equipped to provide blood transfusion and resuscitation.
- Has read, understood and explained to the client the prescribing information for mifepristone.

Air transports

Air transport providers must be registered with Medicaid as an ambulance provider. Claims for these services are billed on a CMS-1500 claim form. See the *Ambulance Services* manual available on the Provider Information website (see *Key Contacts*).

Chemical dependency treatment

Medicaid covers chemical dependency treatment services. For coverage details, contact the Chemical Dependency Bureau (see *Key Contacts*).

Diabetic education

Medicaid covers diabetic education services for newly diagnosed and/or unstable diabetics (e.g., a long-term diabetic with current management problems). The diabetic education protocol must meet the following Medicare Part A requirements:

- The program must train and motivate the client to self-manage their diabetes through proper diet and exercise, blood glucose self monitoring, and insulin treatment.
- The plan of treatment must include goals for the client and how they will be achieved, and the program duration must be sufficient to meet these goals.
- The physician must refer only his or her clients to the program.
- The program must be provided under the physician's order by the provider's personnel and under medical staff supervision.
- The education plan must be designed specifically for the client to meet his or her individual needs. Structured education may be included in the plan, but not substituted for individual training.

Donor transplants

Medicaid covers harvesting from organ donors and transplants, but does not cover expenses associated with the donor search process.

Emergency department visits

Prospective hospitals. For prospective hospitals, the Department will always pay a screening fee for medical services provided in the emergency department. The screening examination is performed to determine if an emergency exists.

Emergency medical services are those services required to treat and stabilize an emergency medical condition. A service is reimbursed as an emergency if one of the following criteria is met:

- The service is billed with a qualifying emergency CPT code or the client has a qualifying emergency diagnosis code. A list of emergency CPT and diagnosis codes is available on the Provider Information website.
- The client is a child from birth up to age two who is seen during evening hours (6:00 p.m. to 8:00 a.m.) or on weekends (Friday 6:00 p.m. to Monday 8:00 a.m.).
- The service did not meet one of the previous requirements, but the hospital believes an emergency existed. In this case, the claim and documentation supporting the emergent nature of the services must be mailed to the emergency department review contractor (see *Key Contacts*).

If the visit does not meet one of the emergency criteria, then services beyond the screening and related diagnostic tests are not reimbursed and cost sharing should be collected. If the visit meets the emergency criteria, cost sharing is not collectible.

If an inpatient hospitalization is recommended as post stabilization treatment, the hospital must contact the client's PASSPORT provider. If the provider does not respond within 60 minutes, the inpatient stay will be reimbursed after documentation is sent to the PASSPORT program officer (see *Key Contacts*) for review. The documentation must include the time an attempt was made to reach the provider and the time the inpatient hospitalization began. There must be a 60 minute time lapse between these two events.

Critical access and exempt hospitals. For critical access and exempt hospitals, payment for ED services is completed through the annual cost settlement process. See the *How Payment Is Calculated* chapter in this manual for more information on how payment is calculated for critical access and exempt hospitals.

Outpatient clinic services

The Department will pay for services provided in an outpatient clinic, including clinics that meet the Medicare definition of a hospital-based provider (e.g., an outpatient clinic not on the hospital campus). Hospitals that wish to have outpatient clinics paid as hospital-based providers must send a copy of the Medicare letter granting provider-based status to the Department's hospital program officer at the address shown under *Key Contacts*.

Partial hospitalization

The partial hospitalization program is an active treatment program that offers therapeutically intensive, coordinated, structured clinical services. These services are provided only to clients who are determined to have a serious emotional disturbance (SED) or a severe disabling mental illness (SDMI). Definitions for SED and SDMI are on the Provider Information website under *Definitions and Acronyms*. Partial hospitalization services are time-limited and provided within either an acute level program or a sub-acute level program. Partial hospitalization services include day, evening, night and weekend treatment programs that employ an integrated, comprehensive and complementary schedule of recognized treatment or therapeutic activities. These services require prior authorization (see the *PASSPORT and Prior Authorization* chapter in this manual). For more information, see the *Mental Health* manual, which is available on the Provider Information website (see *Key Contacts*).

Sterilization (ARM 37.86.104)

Elective Sterilization

Elective sterilizations are sterilizations done for the purpose of becoming sterile. Medicaid covers elective sterilization for men and women when all of the following requirements are met:

1. Client must complete and sign the *Informed Consent to Sterilization* (MA-38) form at least 30 days, but not more than 180 days, prior to the sterilization procedure. This form is the **only** form Medicaid accepts for elective sterilizations (see *Appendix A Forms* for the form and instructions). If this form is not properly completed, payment will be denied.

   The 30-day waiting period may be waived for either of the following reasons:

   - **Premature Delivery**. The *Informed Consent to Sterilization* must be completed and signed by the client at least 30 days prior to the estimated delivery date and at least 72 hours prior to the sterilization.
   - **Emergency Abdominal Surgery**. The *Informed Consent to Sterilization* form must be completed and signed by the client at least 72 hours prior to the sterilization procedure.

2. Client must be at least 21 years of age when signing the form.

3. Client must not have been declared *mentally incompetent* (see *Definitions*) by a federal, state or local court, unless the client has been declared competent to specifically consent to sterilization.

4. Client must not be confined under civil or criminal status in a correctional or rehabilitative facility, including a psychiatric hospital or other correctional facility for the treatment of the mentally ill.

Before performing a sterilization, the following requirements must be met:

- The client must have the opportunity to have questions regarding the sterilization procedure answered to his/her satisfaction.
- The client must be informed of his/her right to withdraw or withhold consent anytime before the sterilization without being subject to retribution or loss of benefits.
- The client must be made aware of available alternatives of birth control and family planning.
- The client must understand the sterilization procedure being considered is irreversible.
- The client must be made aware of the discomforts and risks which may accompany the sterilization procedure being considered.
- The client must be informed of the benefits and advantages of the sterilization procedure.
- The client must know that he/she must have at least 30 days to reconsider his/her decision to be sterilized.
- An interpreter must be present and sign for those clients who are blind, deaf, or do not understand the language to assure the person has been informed.

Informed consent for sterilization may not be obtained under the following circumstances:

- If the client is in labor or childbirth.
- If the client is seeking or obtaining an abortion.
- If the client is under the influence of alcohol or other substance which affects his/her awareness.

Medically Necessary Sterilization

When sterilization results from a procedure performed to address another medical problem, it is considered a medically necessary sterilization. These procedures include hysterectomies, oophorectomies, salpingectomies and ochiectomies. Every claim submitted to Medicaid for a medically necessary sterilization must be accompanied by one of the following:

- A completed *Medicaid Hysterectomy Acknowledgement* form (MA- 39) for each provider submitting a claim. See *Appendix A*

Forms. It is the provider's responsibility to obtain a copy of the form from the primary or attending physician. Complete only one section (A, B, or C) of this form. When no prior sterility (section B) or life-threatening emergency (section C) exists, the client (or representative, if any) and physician must sign and date section A of this form prior to the procedure (see 42 CFR 441.250 for the federal policy on hysterectomies and sterilizations). Also, for section A, signatures dated after the surgery date require manual review of medical records by the Department. The Department must verify that the client (and representative, if any) was informed orally and in writing, prior to the surgery, that the procedure would render the client permanently incapable of reproducing. The client does not need to sign this form when sections B or C are used. Please refer to *Appendix A* for more detailed instructions on completing the form.

- For clients who have become retroactively eligible for Medicaid, the physician must certify in writing that the surgery was performed for medical reasons and must document one of the following:
    - The individual was informed prior to the hysterectomy that the operation would render the client permanently incapable of reproducing.
    - The reason for the hysterectomy was a life-threatening emergency.
    - The client was already sterile at the time of the hysterectomy and the reason for prior sterility.

When submitting claims for retroactively eligible clients, attach a copy of the FA-455 (Eligibility determination letter) to the claim if the date of service is more than 12 months earlier than the date the claim is submitted.

Therapy services

In an outpatient department, physical, occupational, and speech/language therapy services are limited to 40 hours each during a state fiscal year (July 1 - June 30) for adults age 21 years and older. Children may qualify for more than 40 hours if medically necessary, and prior authorization is required (see the *PASSPORT and Prior Authorization* chapter in this manual).

Other Programs

This is how the information in this chapter applies to Department programs other than Medicaid.

Mental Health Services Plan (MHSP)

Lab and imaging services are the only hospital outpatient services available for clients enrolled in MHSP. This limit does not apply to Medicaid enrolled clients receiving mental health services. Providers will find more information on Medicaid mental health services and MHSP services in the *Mental Health* manual available on the Provider Information website (see *Key Contacts*).

Children's Health Insurance Plan (CHIP)

The information in this chapter does not apply to CHIP clients. Hospital outpatient services for children with CHIP coverage are covered by the BlueCHIP plan of BlueCross BlueShield of Montana (BCBSMT). For more information contact BCBSMT at (800) 447-7828 x8647 or (406) 447-8647. Additional information regarding CHIP is available on the *CHIP* website (see *Key Contacts*).

MONTANA
Department of Public Health & Human Services

PASSPORT and Prior Authorization

What Are PASSPORT, Team Care and Prior Authorization? (ARM 37.86.5101 - 5120)

PASSPORT To Health, the Team Care Program and prior authorization (PA) are three examples of the Department's efforts to ensure the appropriate use of Medicaid services. In most cases, providers need approval before services are provided to a particular client. PASSPORT approval and prior authorization are different, and some services may require both. A different code is issued for each type of approval and must be included on the claim form (see the *Completing A Claim* chapter in this manual).

- ***PASSPORT To Health Managed Care Program*** is Montana Medicaid's Primary Care Case Management (PCCM) Program. Under PASSPORT, Medicaid clients choose one primary care provider and develop an ongoing relationship that provides a "medical home." With some exceptions, all services to PASSPORT clients must be provided or approved by the PASSPORT provider. Most Montana Medicaid clients must participate in PASSPORT with only a few exceptions. The PASSPORT Program saves the Medicaid Program approximately $20 million each year. These savings allow improved benefits elsewhere in the Medicaid Program. For more information on PASSPORT To Health, see the *General Information For Providers* manual, *PASSPORT and Prior Authorization* chapter.
- ***Team Care*** is a utilization control and management program designed to educate clients on how to effectively use the Medicaid system. Clients with a history of using services at an amount or frequency that is not medically necessary are enrolled in Team Care. These clients must enroll in PASSPORT, select a PASSPORT primary care provider (PCP) and a single pharmacy, and call the Nurse First Advice Line prior to accessing Medicaid health services (except for emergency services). These clients receive extensive outreach and education from Nurse First nurses and are instructed on the proper use of the Montana Medicaid healthcare system. Team care is a component of the PASSPORT program, and all PASSPORT rules and guidelines apply to these clients. For more information on the Team Care Program and Nurse First, see the *General Information For Providers* manual or the *Team Care* page on the Provider Information website (see *Key Contacts*).
- ***Prior authorization*** refers to a list of services. If a service requires prior authorization, the requirement exists for all Medicaid clients. When prior authorization is granted, the provider is issued a PA number which must be on the claim. See *Prior Authorization* later in this chapter for instructions on how to obtain prior authorization for covered services.

Different codes are issued for PASSPORT approval and prior authorization, and both must be recorded on the UB-92 claim form.

Medicaid does not pay for services when prior authorization or PASSPORT requirements are not met.

In practice, providers will most often encounter clients who are enrolled in PASSPORT. Specific services may also require prior authorization regardless of whether the client is a PASSPORT enrollee. For example, if a PASSPORT client comes to a plastic surgeon requesting a cosmetic procedure, then PASSPORT approval is required from the PASSPORT provider and prior authorization is required from the Department's SURS unit. Refer to *Prior Authorization* later in this chapter and the fee schedules for PA requirements. PASSPORT approval requirements are described below.

PASSPORT information for all providers

Client eligibility verification will indicate whether the client is enrolled in PASSPORT. The client's PASSPORT provider and phone number are also available, and the client may have full or basic coverage. Instructions for checking client eligibility are in the *Client Eligibility and Responsibilities* chapter of the *General Information For Providers* manual.

To be covered by Medicaid, all services must be provided in accordance with the requirements listed in the *Provider Requirements* chapter of the *General Information For Providers* manual and in the *Covered Services* chapter of this manual. Prior authorization requirements must also be followed.

PASSPORT and emergency services

PASSPORT provider approval is not required for services provided in the emergency department (ED) for any Medicaid client. However, if an inpatient hospitalizatoin is recommended as post stabilization treatment, the hospital must contact the client's PASSPORT provider (see *Emergency department visits* in the *Covered Services* chapter of this manual).

PASSPORT and Indian Health Services

Clients who are eligible for both Indian Health Services (IHS) and Medicaid may choose IHS or another provider as their PASSPORT provider. Clients who are eligible for IHS do not need a referral from their PASSPORT provider to obtain services from IHS. However, if IHS refers the client to a non-IHS provider, the PASSPORT provider must approve the referral.

Getting questions answered

The *Key Contacts* list (at the front of this manual) provides important phone numbers and addresses. Provider and Client HelpLines are available to answer almost any PASSPORT or general Medicaid question. You may call the PASSPORT Provider HelpLine to obtain materials for display in your office, discuss any problems or questions regarding your PASSPORT clients, or enroll in PASSPORT. You can keep up with changes and updates to the PASSPORT program by reading the PASSPORT provider newsletters. Newsletters and other information are available on the Provider Information website (see *Key Contacts*). For claims questions, call Provider Relations.

Prior Authorization

Some services require prior authorization (PA) before they are provided. When seeking PA, keep in mind the following:

- The referring provider should initiate all authorization requests.
- Always refer to the current Medicaid fee schedule to verify if PA is required for specific services.
- The following table (*PA Criteria for Specific Services*) lists services that require PA, who to contact, and specific documentation requirements.
- Have all required documentation included in the packet before submitting a request for PA (see the following *PA Criteria for Specific Services* table for documentation requirements).
- When PA is granted, providers will receive notification containing a PA number. This PA number must be included in form locator 63 on the UB-92 claim form.

		• Both the referring physician and the surgeon must submit documentation.
		• Back pain must have been documented and present for at least six months, and causes other than breast weight must have been excluded.
		• **Indications for female client:**
		• Contraindicated for pregnant women and lactating mothers. A client must wait six months after the cessation of breast feeding before requesting this procedure.
		• Female client 16 years or older with a body weight less than 1.2 times the ideal weight.
		• There must be severe, documented secondary effects of large breasts, unresponsive to standard medical therapy administered over at least a six month period. This must include at least two of the following conditions:
		  • Upper back, neck, shoulder pain that has been unresponsive to at least six months of documented and supervised physical therapy and strengthening exercises
		  • Paresthesia radiating into the arms. If parathesia is present, a nerve conduction study must be submitted.
		  • Chronic intertrigo (a superficial dermatitis) unresponsive to conservative measures such as absorbent material or topical antibiotic therapy. Document extent and duration of dermatological conditions requiring antimicrobial therapy.
		  • Significant shoulder grooving unresponsive to conservative management with proper use of appropriate foundation garments which spread the tension of the support and lift function evenly over the shoulder, neck and upper back.
		Documentation in the client's record must indicate and support the following:
		• History of the client's symptoms related to large, pendulous breasts.
		• The duration of the symptoms of at least six months and the lack of success of other therapeutic measures (e.g., documented weight loss programs with six months of food and calorie intake diary, medications for back/neck pain, etc.).
		• Guidelines for the anticipated weight of breast tissue removed from each breast related to the client's height (which must be documented):
		Height — **Weight of tissue per breast**
		less than 5 feet — 250 grams
		5 feet to 5 feet, 2 inches — 350 grams
		5 feet, 2 inches to 5 feet, 4 inches — 450 grams
		greater than 5 feet, 4 inches — 500 grams
		• Pre-operative photographs of the pectoral girdle showing changes related to macromastia.
		• Medication use history. Breast enlargements may be caused by various medications (e.g., sironolactone, cimetidine) or illicit drug abuse (e.g., marijuana, heroin, steroids). Although rare in women, drug effects should be considered as causes of breast enlargement prior to surgical treatment since the problem may recur after the surgery if the drugs are continued. Increased prolactin levels can cause breast enlargement (rare). Liver disease, adrenal or pituitary tumors may also cause breast enlargement and should also be considered prior to surgery.
		• **Indications for male client:**
		• If the condition persists, a client may be considered a good candidate for surgery. Clients who are alcoholic, illicit drug abusers (e.g., steroids, heroin, marijuana) or overweight are not good candidates for the reduction procedure until they attempt to correct their medical problem first.
		• Documentation required: length of time gynecomastia has been present, height, weight, and age of the client, pre-operative photographs

Other Programs

Clients who are enrolled in the Mental Health Services Plan (MHSP) or the Children's Health Insurance Plan (CHIP) are not enrolled in PASSPORT, so the PASSPORT requirements in this chapter do not apply. However, prior authorization may be required for certain services. Refer to the *Mental Health* manual.

For more CHIP information, contact BlueCross BlueShield of Montana at (800) 447-7828 x8647. Additional CHIP information is available on the Provider Information website (see *Key Contacts*).

Coordination of Benefits

When Clients Have Other Coverage

Medicaid clients often have coverage through Medicare, workers' compensation, employment-based coverage, individually purchased coverage, etc. Coordination of benefits is the process of determining which source of coverage is the primary payer in a particular situation. In general, providers must bill other carriers before billing Medicaid, but there are some exceptions (see *Exceptions to Billing Third Party First* later in this chapter). Medicare coverage is processed differently than other sources of coverage.

Identifying Other Sources of Coverage

The client's Medicaid eligibility verification may identify other payers such as Medicare or other third party payers (see *Client Eligibility and Responsibilities* in the *General Information For Providers* manual). If a client has Medicare, the Medicare ID number is provided. If a client has other coverage (excluding Medicare), it will be shown under the "TPL" section. Some examples of third party payers include:

- Private health insurance
- Employment-related health insurance
- Workers' compensation insurance*
- Health insurance from an absent parent
- Automobile insurance*
- Court judgments and settlements*
- Long term care insurance

*These third party payers (and others) may **not** be listed on the client's eligibility verification.

Providers must use the same procedures for locating third party sources for Medicaid clients as for their non-Medicaid clients. Providers cannot refuse service because of a third party payer or potential third party payer.

When a Client Has Medicare

Medicare claims are processed and paid differently than claims involving other payers. The other sources of coverage are referred to as "third party liability" (TPL), but Medicare is not.

For details on how Medicaid calculates payment for Medicare claims, see the *How Payment Is Calculated* chapter in this manual.

Medicare Part A claims

Medicare Part A covers inpatient hospital care, skilled nursing care and other services. To date, arrangements have not been made with Medicare Part A carriers for electronic exchange of claims covering Part A services. Providers must submit the claim first to Medicare. After Medicare processes the claim, an Explanation of Medicare Benefits (EOMB) is sent to the provider. The provider then reviews the EOMB, and submits the claim to Medicaid on paper.

Medicare Part A crossover claims do not automatically cross over from Medicare.

Medicare Part B crossover claims

Medicare Part B covers outpatient hospital care, physician care and other services. Although outpatient hospital care is covered under Part B, it is processed by Medicare Part A. This means that outpatient hospital claims are completed on a UB-92 form and must be submitted directly to Medicaid. These claims do not automatically cross over from Medicare.

When Medicare pays or denies a service

When outpatient hospital claims for clients with Medicare and Medicaid:

- Are paid, submit the claim to Medicaid on a UB-92 form with the Medicare coinsurance and deductible information in the "Value Codes" form locators (39-41) and Medicare paid amounts in the "Prior Payments" form locator (54). See the *Billing Procedures* and *Completing a Claim* chapters in this manual.
- Are allowed, and the allowed amount went toward client's deductible, include the deductible information in the "Value Codes" form locators (39-41) and submit the claim to Medicaid on paper.
- Are denied, the provider submits a paper claim to Medicaid with the Medicare EOMB and the explanation of denial codes attached. If Medicare denies a claim because the service was not medically necessary, Medicaid will also deny the claim.

When billing Medicaid for a client with coverage from multiple sources, see the *Billing Procedures* chapter in this manual.

Submitting Medicare claims to Medicaid

When submitting a paper claim to Medicaid, use Medicaid billing instructions and codes. Medicare's instructions, codes, and modifiers may not be the same as Medicaid's. The claim must include the Medicaid provider number and Medicaid client ID number. The Medicare EOMB and explanation of denial codes are required only if the claim was denied.

When a Client Has TPL (ARM 37.85.407)

When a Medicaid client has additional medical coverage (other than Medicare), it is often referred to as third party liability (or TPL). In most cases, providers must bill other insurance carriers before billing Medicaid.

Providers are required to notify their clients that any funds the client receives from third party payers equal to what Medicaid paid (when the services were billed to Medicaid) must be turned over to the Department. Amounts in excess of what Medicaid paid must be returned to the provider. The following words printed on the client's statement will fulfill this requirement: "When services are covered by Medicaid and another source, any payment the client receives from the other source must be turned over to Medicaid."

Exceptions to billing third party first

In a few cases, providers may bill Medicaid first.

- When a Medicaid client is also covered by Indian Health Service (IHS) or the Montana Crime Victim's Compensation Fund, providers must bill Medicaid before IHS or Crime Victim's. These are not considered third party liability.
- When a client has Medicaid eligibility and Mental Health Services Plan (MHSP) eligibility for the same month, Medicaid must be billed before MHSP.
- If the third party has only potential liability, such as automobile insurance, the provider may bill Medicaid first. Do not indicate the potential third party on the claim form. Instead, notify the Department of the potential third party by sending the claim and notification to the Department Third Party Liability Unit:

  Third Party Liability Unit
  Department of Public Health & Human Services
  P.O. Box 202953
  Helena, MT 59620-2953

Requesting an exemption

Providers may request to bill Medicaid first under certain circumstances. In each of these cases, the claim and required information must be sent directly to the ACS Third Party Liability Unit (see *Key Contacts*).

- If another insurance has been billed, and 90 days have passed with no response, attach a note to the claim explaining that the insurance company has been billed (or a copy of the letter sent to the insurance company). Include the date the claim was submitted to the insurance company and certification that there has been no response.
- When the provider has billed the third party insurance and has received a non-specific denial (e.g., no client name, date of service, amount billed), submit the claim with a copy of the denial and a letter of explanation directly to Medicaid in order to avoid missing the timely filing deadline.

If the provider receives a payment from a third party after the Department has paid the provider, the provider must return the lower of the two payments to the Department within 60 days.

- When the child support enforcement division has required an absent parent to have insurance on a child, the claim can be submitted to Medicaid when the following requirements are met:
    1. The third party carrier has been billed, and 30 days or more have passed since the date of service.
    2. The claim is accompanied by a certification that the claim was billed to the third party carrier, and payment or denial has not been received.

When the third party pays or denies a service

When a third party payer is involved (excluding Medicare) and the other payer:

- Pays the claim, indicate the amount paid in the "prior payments" form locator of the claim when submitting to Medicaid for processing.
- Allows the claim, and the allowed amount went toward client's deductible, include the insurance Reason and Remarks (formerly EOB) when billing Medicaid. With HIPAA implementation, these claims may be submitted on paper or electronically with the paper attachment mailed in separately. A paper attachment cover sheet is available on the Provider Information website (see *Key Contacts*). Until HIPAA implementation, continue to bill on paper with attachments.
- Denies the claim, include a copy of the denial (including the denial reason codes) with the claim form, and submit to Medicaid on paper.

For details on how Medicaid calculates payment for TPL claims, see the *How Payment Is Calculated* chapter in this manual.

When the third party does not respond

If another insurance has been billed, and 90 days have passed with no response, bill Medicaid as follows:

- Attach to the paper claim a note explaining that the insurance company has been billed (or a copy of the letter sent to the insurance company).
- Include the date the claim was submitted to the insurance company.
- Send this information to the ACS Third Party Liability Unit (see *Key Contacts*).

Other Programs

The information in this chapter applies to outpatient hospital services for clients who are enrolled in the Mental Health Services Plan (MHSP). The information in this chapter does not apply to clients enrolled in the Children's Health Insurance Plan (CHIP). The CHIP Medical Manual is available through BlueCross BlueShield at (800) 447-7828 X8647.

Billing Procedures

Claim Forms

Services provided by the health care professionals covered in this manual must be billed either electronically or on a UB-92 claim form. UB-92 forms are available from various publishing companies; they are not available from the Department or Provider Relations.

Timely Filing Limits (ARM 37.85.406)

Providers must submit clean claims to Medicaid within the latest of:

- Twelve months from whichever is later:
  - the date of service
  - the date retroactive eligibility or disability is determined
- For claims involving Medicare or TPL, if the twelve month time limit has passed, providers must submit clean claims to Medicaid within:
  - ***Medicare crossover claims:*** Six months from the date on the Medicare explanation of benefits approving the service (if the Medicare claim was timely filed and the client was eligible for Medicare at the time the Medicare claim was filed).
  - ***Claims involving other third party payers (excluding Medicare):*** Six months from the date on an adjustment notice from a third party payer who has previously processed the claim for the same service, and the adjustment notice is dated after the periods described above.

Clean claims are claims that can be processed without additional information or action from the provider. The submission date is defined as the date that the claim was received by the Department or the claims processing contractor. All problems with claims must be resolved within this 12 month period.

Tips to avoid timely filing denials

- Correct and resubmit denied claims promptly (see the *Remittance Advices and Adjustments* chapter in this manual).
- If a claim submitted to Medicaid does not appear on the remittance advice within 45 days, contact Provider Relations for claim status (see *Key Contacts*).

- If another insurer has been billed and 90 days have passed with no response, you can bill Medicaid (see the *Coordination of Benefits* chapter in this manual for more information).
- To meet timely filing requirements for Medicare/Medicaid crossover claims, see the *Coordination of Benefits* chapter in this manual.

When To Bill Medicaid Clients (ARM 37.85.406)

If a provider bills Medicaid and the claim is denied because the client is not eligible, the provider may bill the client directly.

In most circumstances, providers may not bill Medicaid clients for services covered under Medicaid. The main exception is that providers may collect cost sharing from clients.

More specifically, providers cannot bill clients directly:

- For the difference between charges and the amount Medicaid paid.
- For a covered service provided to a Medicaid-enrolled client who was accepted as a Medicaid client by the provider, even if the claim was denied.
- When the provider bills Medicaid for a covered service, and Medicaid denies the claim because of billing errors.
- When a third-party payer does not respond.
- When a client fails to arrive for a scheduled appointment. Medicaid may not be billed for no-show appointments.
- When services are free to the client, such as in a public health clinic. Medicaid may not be billed for those services.

Under certain circumstances, providers may need a signed agreement in order to bill a Medicaid client (see the following table).

When to Bill a Medicaid Client (ARM 37.85.406)

	• Client Is Medicaid Enrolled • Provider Accepts Client as a Medicaid Client	• Client Is Medicaid Enrolled • Provider Does Not Accept Client as a Medicaid Client	• Client Is Not Medicaid Enrolled
Service is covered by Medicaid	Provider can bill client **only** for cost sharing	Provider can bill Medicaid client if the client has signed a routine agreement	Provider can bill client
Service is not covered by Medicaid	Provider can bill client only if custom agreement has been made between client and provider before providing the service	Provider can bill Medicaid client if the client has signed a routine agreement	Provider can bill client

Routine Agreement: This may be a routine agreement between the provider and client which states that the client is not accepted as a Medicaid client, and that he or she must pay for the services received.

Custom Agreement: This agreement lists the service and date the client is receiving the service and states that the service is not covered by Medicaid and that the client will pay for it.

Client cost sharing for hospital outpatient services is $5.00 per visit.

Client Cost Sharing (ARM 37.85.204 and 37.85.402)

Cost sharing fees are a set dollar amount per visit, and they are based on the average Medicaid allowed amount for the provider type and rounded to the nearest dollar. There is no cost sharing cap. Do not show cost sharing as a credit on the claim; it is automatically deducted during claims processing and is shown on the remittance advice. Cost sharing for outpatient hospital services is $5.00 per visit.

Do not show cost sharing as a credit on the claim; it is automatically deducted.

The following clients are exempt from cost sharing:

- Clients under 21 years of age (i.e., EPSDT services)
- Pregnant women (until end of postpartum, which begins on the last day of pregnancy and ends at the end of the month in which 60 days have passed)
- Inpatients in a hospital, skilled nursing facility, intermediate care facility or other medical institution if the individual is required to spend all but their personal needs allowance on the cost of care.
- Medicaid clients who also have Medicare or another insurance are exempt from cost sharing if the service is allowed by Medicare or paid by the other insurance, and Medicaid is the secondary payer.

Cost sharing may not be charged for the following services:

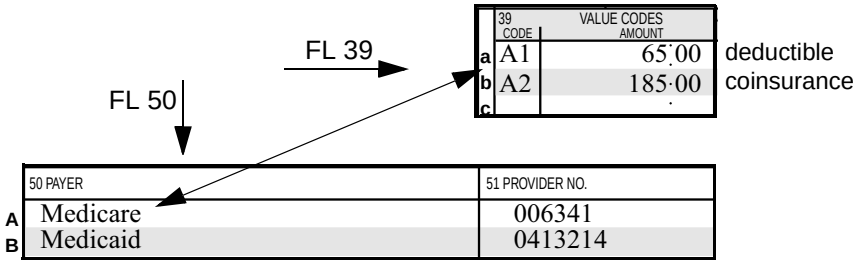
- Emergencies (see the *Covered Services* chapter in this manual)
- Family planning
- Hospice
- Independent lab and x-ray services
- Personal assistance services
- Home dialysis attendant services
- Home and community based waiver services
- Non-emergency medical transportation services
- Eyeglasses purchased by the Medicaid program under a volume purchasing arrangement
- EPSDT services

A provider cannot deny services to a Medicaid client because the client cannot pay cost sharing fees at the time services are rendered. However, the client's inability to pay cost sharing fees when services are rendered does not lessen the client's obligation. If a provider has a policy on collecting delinquent payment from non-Medicaid clients, that same policy may be used for Medicaid clients.

Billing for Clients with Other Insurance

If a Medicaid client is also covered by Medicare, has other insurance, or some other third party is responsible for the cost of the client's health care, see the *Coordination of Benefits* chapter in this manual.

When completing a claim for clients with Medicare and Medicaid, Medicare coinsurance and deductible amounts listed in FL 39 must correspond with the payer listed in FL 50. For example, if the client has Medicare and Medicaid, any Medicare deductible and coinsurance amounts should be listed in FL 39 preceded by an A1, A2, etc. Because these amounts are for Medicare, Medicare should be listed in FL 50A (see the *Completing a Claim* chapter in this manual).



Billing for Retroactively Eligible Clients

When a client becomes retroactively eligible for Medicaid, the hospital provider may:

- Accept the client as a Medicaid client from the current date.
- Accept the client as a Medicaid client from the date retroactive eligibility was effective.
- Require the client to continue as a private-pay client.

When the provider accepts the client's retroactive eligibility, the provider has 12 months from the date retroactive eligibility was determined to bill for those services. When submitting claims for retroactively eligible clients, attach a copy of the FA-455 (eligibility determination letter) to the claim if the date of service is more than 12 months earlier than the date the claim is submitted. Providers may need to contact the client's local office of public assistance (see the *General Information For Providers* manual, *Appendix B: Local Offices of Public Assistance*).

When a provider chooses to accept the client from the date retroactive eligibility was effective, and the client has made a full or partial payment for services, the provider must refund the client's payment for the service(s) before billing Medicaid for the service(s).

Always refer to the long descriptions in coding books.

Coding

Standard use of medical coding conventions is required when billing Medicaid. Provider Relations or the Department cannot suggest specific codes to be used in billing for services. For coding assistance and resources, see the table of *Coding Resources* on the following page. The following suggestions may help reduce coding errors and unnecessary claim denials:

- Use current CPT-4, HCPCS Level II, and ICD-9-CM coding books.
- Always read the complete description and guidelines in the coding books. Relying on short descriptions can result in inappropriate billing.
- Attend classes on coding offered by certified coding specialists.
- Use specific codes rather than unlisted codes. For example, don't use 53899 unlisted procedure of the urinary system when a more specific code is available.
- Bill for the appropriate level of service provided. Evaluation and management services have three to five levels. See your CPT manual for instructions on determining appropriate levels of service.
- CPT codes that are billed based on the amount of time spent with the client must be billed with the code that is closest to the time spent. For example, a provider spends 60 minutes with the client. The code choices are 45 to 50 minutes or 76 to 80 minutes. The provider must bill the code for 45 to 50 minutes.
- Revenue codes 25X and 27X do not require CPT or HCPCS codes; however, providers are advised to place appropriate CPT or HCPCS Level II codes on each line. Providers are paid based on the presence of line item CPT and HCPCS codes. If these codes are omitted, the hospital may be under paid.
- Take care to use the correct "units" measurement. In general, Medicaid follows the definitions in the CPT-4 and HCPCS Level II billing manuals. Unless otherwise specified, one unit equals one visit or one procedure. For specific codes, however, one unit may be "each 15 minutes". Always check the long text of the code description published in the CPT-4 or HCPCS Level II coding books. For example, if a physical therapist spends 45 minutes working with a client (97110), and the procedure bills for "each 15 minutes," it would be billed this way:

42 REV. CD.	43 DESCRIPTION	44 HCPCS / RATES	45 SERV. DATE	46 SERV. UNITS	47 TOTAL CHARGES
420	Physical Therapy	97110	05/16/03	3	150.00

Number of Lines on Claim

Providers are requested to put no more than 40 lines on a UB-92 claim. Although additional lines may be billed on the same claim, the Department claims processing system is most efficient for outpatient claims with 40 lines or fewer.

Multiple Services on Same Date

Outpatient hospital providers must submit a single claim for all services provided to the same client on the same day. If services are repeated on the same day, use appropriate modifiers.

Span Bills

Outpatient hospital providers may include services for more than one day on a single claim, so long as the service is paid by fee schedule (e.g., partial hospitalization, therapies, etc.) and the date is shown on the line. However, the OCE (Outpatient Code Editor) will not price APC procedures when more than one date of service appears at the line level, so we recommend billing for only one date at a time when APC services are involved.

Reporting Service Dates

- All line items must have a valid date of service in form locator (FL) 45.
- The following revenue codes require a separate line for each date of service and a valid CPT or HCPCS Level II code:

Revenue Codes That Require a Separate Line for Each Date of Service and a Valid CPT or HCPCS Code

26X	IV Therapy	51X	Clinic
28X	Oncology	52X	Free-Standing Clinic

Using Modifiers

- Review the guidelines for using modifiers in the most current CPT-4 book, HCPCS Level II book, and other helpful resources (e.g., CPT Assistant, APC Answer Letter and others).
- Always read the complete description for each modifier; some modifiers are described in the CPT-4 manual while others are in the HCPCS Level II book.
- Medicaid accepts the same modifiers as Medicare.
- The Medicaid claims processing system recognizes only one modifier. The modifier must be added to the CPT/HCPCS code without a space or hyphen in form locator (FL) 44. For example, 25680 (treatment of wrist fracture) when done bilaterally is reported as 2568050.
- Since the Medicaid claims processing system can read only one modifier per line, it is important to report the most important modifier first. In this case, the most important modifiers for Medicaid are those that affect pricing. Discontinued or reduced service modifiers must be listed before other pricing modifiers. For a list of modifiers that change pricing, see the *How Payment Is Calculated* chapter in this manual.

Billing Tips for Specific Services

Prior authorization is required for some outpatient hospital services. PASSPORT and prior authorization are different, and some services may require both (see the *PASSPORT and Prior Authorization* chapter in this manual). Different codes are issued for each type of approval and must be included on the claim form (see the *Completing A Claim* chapter in this manual).

Abortions

A completed *Medicaid Recipient/Physician Abortion Certification* (MA-37) form must be attached to every abortion claim or payment will be denied (see *Appendix A: Forms*). Complete only one part (I, II, or III) of this form; the part used must be clearly indicated on the form. This is the only form Medicaid accepts for abortions.

Drugs and biologicals

While most drugs are bundled (packaged), there are some items that have a fixed payment amount and some that are designated as transitional pass-through items (see *Pass-through* in the *How Payment Is Calculated* chapter of this manual). Bundled drugs and biologicals have their costs included as part of the service with which they are billed. The following drugs may generate additional payment:

- Vaccines, antigens, and immunizations
- Chemotherapeutic agents and the supported and adjunctive drugs used with them
- Immunosuppressive drugs

- Orphan drugs
- Radiopharmaceuticals
- Certain other drugs, such as those provided in an emergency department for heart attacks

Medicare does not cover revenue code 250 (General class pharmacy). When a client has both Medicare and Medicaid and Medicare denies the pharmacy portion of a claim, providers must report revenue code 250 on a separate UB-92 claim form when submitting the claim to Medicaid.

Lab services

If all tests that make up an organ or disease organ panel are performed, the panel code should be billed instead of the individual tests.

Some panel codes are made up of the same test or tests performed multiple times. When billing one unit of these panels, bill one line with the panel code and one unit. When billing multiple units of a panel (the same test is performed more than once on the same day), bill the panel code with units corresponding to the number of times the panel was performed.

Outpatient clinic services

When Medicaid pays a hospital for outpatient clinic or provider based clinic services, the separate CMS-1500 claim for the physician's services must show the hospital as the place of service (i.e., place of service is 22 for hospital outpatient). For imaging and other services that have both technical and professional components, physicians providing services in hospitals must also take care to bill only for the professional component if the hospital will bill Medicaid for the technical component. Refer to the *Physician Related Services* manual, *Billing Procedures* chapter for more information. Manuals are available on the Provider Information website (see *Key Contacts*)

Partial hospitalization

Partial hospitalization services must be billed with the national code for partial hospitalization, the appropriate modifier, and the prior authorization code.

Current Payment Rates for Partial Hospitalization

Code	Modifier	Service Level
H0035		Partial hospitalization, sub-acute, half day
H0035	U6	Partial hospitalization, sub-acute, full day
H0035	U7	Partial hospitalization, acute, half day
H0035	U8	Partial hospitalization, acute, full day

Sterilization

- For elective sterilizations, a completed *Informed Consent to Sterilization* (MA-38) form must be attached to the claim for each provider involved or payment will be denied. This form must be legible, complete, and accurate, and revisions are not accepted. It is the provider's responsibility to obtain a copy of the form from the primary or attending physician.
- For medically necessary sterilizations (including hysterectomies, oophorectomies, salpingectomies, and orchiectomies), one of the following must be attached to the claim, or payment will be denied:
    - A completed *Medicaid Hysterectomy Acknowledgement* form (MA- 39) for each provider submitting a claim. See *Appendix A Forms*. It is the provider's responsibility to obtain a copy of the form from the primary or attending physician. Complete only one section (A, B, or C) of this form. When no prior sterility (section B) or life-threatening emergency (section C) exists, the client (or representative, if any) and physician must sign and date Section A of this form prior to the procedure (see 42 CFR 441.250 for the federal policy on hysterectomies and sterilizations). Also, for section A, signatures dated after the surgery date require manual review of medical records by the Department. The Department must verify that the client (and representative, if any) was informed orally and in writing, prior to the surgery, that the procedure would render the client permanently incapable of reproducing. The client does not need to sign this form when sections B or C are used. Please refer to *Appendix A* for more detailed instructions on completing the form.
    - For clients who have become retroactively eligible for Medicaid, the physician must certify in writing that the surgery was performed for medical reasons and must document one of the following:
        - The individual was informed prior to the hysterectomy that the operation would render the client permanently incapable of reproducing.
        - The reason for the hysterectomy was a life-threatening emergency.
        - The client was already sterile at the time of the hysterectomy and the reason for prior sterility.

When submitting claims for retroactively eligible clients, attach a copy of the FA-455 (Eligibility determination letter) to the claim if the date of service is more than 12 months earlier than the date the claim is submitted. For more information on sterilizations, see the *Covered Services* chapter in this manual.

Supplies

Supplies are generally bundled (packaged), so they usually do not need to be billed individually. A few especially expensive supplies are paid separately by Medicaid. Documentation of the Ambulatory Payment Classification (APC) system, available from commercial publishers, lists the supply codes that may be separately payable.

Submitting a Claim

Paper claims

Unless otherwise stated, all paper claims must be mailed to:

Claims Processing
P.O. Box 8000
Helena, MT 59604

Electronic claims

Providers who submit claims electronically experience fewer errors and quicker payment. Claims may be submitted electronically by the following methods:

- ACS field software WINASAP 2003. ACS makes available this free software, which providers can use to create and submit claims to Montana Medicaid, MHSP, and CHIP (dental and eyeglasses only). It does not support submissions to Medicare or other payers. This software creates an 837 transaction, but does not accept an 835 transaction back from the Department.
- ACS clearinghouse. Providers can send claims to the ACS clearinghouse (ACS EDI Gateway) in X12 837 format using a dial-up connection. Electronic submitters are required to certify their 837 transactions as HIPAA-compliant before sending their transactions through the ACS clearinghouse. EDIFECS certifies the 837 HIPAA transactions at no cost to the provider. EDIFECS certification is completed through ACS EDI Gateway.
- Clearinghouse. Providers can contract with a clearinghouse so that the provider can send the claim to the clearinghouse in whatever format the clearinghouse accepts. The provider's clearinghouse then sends the claim to the ACS clearinghouse in the X12 837 format. The provider's clearinghouse also needs to have their 837 transactions certified through EDIFECS before submitting claims to the ACS clearinghouse. EDIFECS certification is completed through ACS EDI Gateway

For more information on electronic claims submission, contact Provider Relations or the EDI Technical Help Desk (see *Key Contacts*).

Claim Inquiries

Contact Provider Relations for questions regarding payments, denials, general claim questions, client eligibiligy, or to request billing instructions, manuals, or fee schedules (see *Key Contacts*).

If you prefer to communicate with Provider Relations in writing, use the *Montana Medicaid Claim Inquiry* form in *Appendix A.* Complete the top portion of the form with the provider's name and address. If you are including a copy of the claim, complete side A; if a copy of the claim is not included, complete side B.

Provider Relations will respond to the inquiry within 7 to 10 days. The response will include the status of the claim: paid (date paid), denied (date denied), or in process. Denied claims will include an explanation of the denial and steps to follow for payment (if the claim is payable).

The Most Common Billing Errors and How to Avoid Them

Paper claims are often returned to the provider before they can be processed, and many other claims (both paper and electronic) are denied. To avoid unnecessary returns and denials, double check each claim to confirm the following items are included and accurate.

Common Billing Errors

Reasons for Return or Denial	How to Prevent Returned or Denied Claims
Medicaid provider number missing or invalid	The provider number is a **7-digit** number assigned to the provider during Medicaid enrollment. Verify the correct **Medicaid** provider number is on the claim.
Authorized signature missing	Each claim must have an authorized signature belonging to the provider, billing clerk, or office personnel. The signature may be typed, stamped, hand-written, or computer generated.
Signature date missing	Each claim must have a signature date.
Incorrect claim form used	The claim must be the correct form for the provider type. Services covered in this manual require a UB-92 claim form.
Information on claim form not legible	Information on the claim form must be legible. Use dark ink and center the information in the form locator. Information must not be obscured by lines.
Recipient number not on file, or recipient was not eligible on date of service	Before providing services to the client, verify client eligibility by using one of the methods described in the *Client Eligibility and Responsibilities* chapter of the *General Information For Providers* manual. Medicaid eligibility may change monthly.

Common Billing Errors (continued)

Reasons for Return or Denial	How to Prevent Returned or Denied Claims
Procedure requires PASSPORT provider approval – No PASSPORT approval number on claim	A PASSPORT provider approval number must be on the claim form when such approval is required. PASSPORT approval is different from prior authorization. See the *PASSPORT and Prior Authorization* chapter in this manual.
Prior authorization number is missing	• Prior authorization (PA) is required for certain services, and the PA number must be on the claim form. Prior authorization is different from PASSPORT authorization. See the *PASSPORT and Prior Authorization* chapter in this manual).
Prior authorization does not match current information	• Claims must be billed and services performed during the prior authorization span. The claim will be denied if it is not billed according to the spans on the authorization.
Duplicate claim	• Please check all remittance advices (RAs) for previously submitted claims before resubmitting. • When making changes to previously paid claims, submit an adjustment form rather than a new claim form (see *Remittance Advices and Adjustments* in this manual).
TPL on file and no credit amount on claim	• If the client has any other insurance (or Medicare), bill the other carrier before Medicaid. See *Coordination of Benefits* in this manual. • If the client's TPL coverage has changed, providers must notify the TPL unit (see *Key Contacts*) before submitting a claim.
Claim past 365-day filing limit	• The Claims Processing Unit must receive all clean claims and adjustments within the timely filing limits described in this chapter. • To ensure timely processing, claims and adjustments must be mailed to Claims Processing at the address shown in *Key Contacts*.
Missing Medicare EOMB	All denied Medicare crossover claims must have an Explanation of Medicare Benefits (EOMB) with denial reason codes attached, and be billed to Medicaid on paper.
Provider is not eligible during dates of services, enrollment has lapsed due to licensing requirements, or provider number terminated	• Out-of-state providers must update licensure for Medicaid enrollment early to avoid denials. If enrollment has lapsed due to expired licensure, claims submitted with a date of service after the expiration date will be denied until the provider updates his or her enrollment. • New providers cannot bill for services provided before Medicaid enrollment begins. • If a provider is terminated from the Medicaid program, claims submitted with a date of service after the termination date will be denied.
Procedure is not allowed for provider type	• Provider is not allowed to perform the service. • Verify the procedure code is correct using current HCPCS and CPT-4 billing manual. • Check the appropriate Medicaid fee schedule to verify the procedure code is valid for your provider type.

Other Programs

The billing procedures in this chapter apply to those services that are covered under the Mental Health Services Plan (MHSP). These billing procedures do not apply to the Children's Health Insurance Plan (CHIP). The CHIP Medical Manual is available through BlueCross BlueShield at (800) 447-7828 X8647.

Completing a Claim Form

The services described in this manual are billed on UB-92 claim forms. Please use this chapter with the *Montana UB-92 Reference Manual*. For more information on submitting HIPAA compliant 837 transactions, refer to the *Companion Guides* on the ACS EDI Gateway website (see *Key Contacts*). Claims submitted with all of the necessary information are referred to as "clean" and are usually paid in a timely manner (see the *Billing Procedure*s chapter in this manual).

Claims are completed differently for the different types of coverage a client has. This chapter includes instructions and a sample claim for each of the following scenarios:

- Client has Medicaid coverage only
- Client has Medicaid and Medicare coverage
- Client has Medicaid and third party liability coverage
- Client has Medicaid, Medicare, and third party liability coverage
- Client has Medicaid, Medicare, and Medicare supplement coverage

When completing a claim, remember the following:

- Please use this information together with the UB-92 Reference Manual.
- All form locators shown in this chapter are required or situational. Situational form locators are required if the information is applicable to the situation or client and are indicated by "*".
- Form locator 11 is used for PASSPORT and FL 78 is used for cost sharing indicators (see following table and instructions in this chapter).

PASSPORT and Cost Sharing Indicators

PASSPORT To Health Indicators	
Code	**Description**
FPS	This indicator is used when providing family planning services.
OBS	This indicator is used when providing obstetrical services.
TCM	This indicator is used when providing targeted case management services.
Cost Sharing Indicators	
E	This indicator is used when providing emergency services.
F	This indicator is used when providing family planning services.
P	This indicator is used when providing services to pregnant women.

- Unless otherwise stated, all paper claims must be mailed to the following address:

UB-92 HCFA-1450 OCR/ORIGINAL

I CERTIFY THE CERTIFICATIONS ON THE REVERSE APPLY TO THIS BILL AND ARE MADE A PART HEREOF.

UB-92 Agreement

Your signature on the UB-92 constitutes your agreement to the terms presented on the back of the form. This form is subject to change by the Centers for Medicare and Medicaid Services (CMS).

UNIFORM BILL: **NOTICE: ANYONE WHO MISREPRESENTS OR FALSIFIES ESSENTIAL INFORMATION REQUESTED BY THIS FORM MAY UPON CONVICTION BE SUBJECT TO FINE AND IMPRISONMENT UNDER FEDERAL AND/OR STATE LAW.**

Certifications relevant to the Bill and Information Shown on the Face Hereof: Signatures on the face hereof incorporate the following certifications or verifications where pertinent to this Bill:

1. If third party benefits are indicated as being assigned or in participation status, on the face thereof, appropriate assignments by the insured/beneficiary and signature of patient or parent or legal guardian covering authorization to release information are on file. Determinations as to the release of medical and financial information should be guided by the particular terms of the release forms that were executed by the patient or the patient's legal representative. The hospital agrees to save harmless, indemnify and defend any insurer who makes payment in reliance upon this certification, from and against any claim to the insurance proceeds when in fact no valid assignment of benefits to the hospital was made.

2. If patient occupied a private room or required private nursing for medical necessity, any required certifications are on file.

3. Physician's certifications and re-certifications, if required by contract or Federal regulations, are on file.

4. For Christian Science Sanitoriums, verifications and if necessary re-verifications of the patient's need for sanitorium services are on file.

5. Signature of patient or his/her representative on certifications, authorization to release information, and payment request, as required be Federal law and regulations (42 USC 1935f, 42 CFR 424.36, 10 USC 1071 thru 1086, 32 CFR 199) and, any other applicable contract regulations, is on file.

6. This claim, to the best of my knowledge, is correct and complete and is in conformance with the Civil Rights Act of 1964 as amended. Records adequately disclosing services will be maintained and necessary information will be furnished to such governmental agencies as required by applicable law.

7. For Medicare purposes:

   If the patient has indicated that other health insurance or a state medical assistance agency will pay part of his/her medical expenses and he/she wants information about his/her claim released to them upon their request, necessary authorization is on file. The patient's signature on the provider's request to bill Medicare authorizes any holder of medical and non-medical information, including employment status, and whether the person has employer group health insurance, liability, no-fault, workers' compensation, or other insurance which is responsible to pay for the services for which this Medicare claim is made.

8. For Medicaid purposes:

   This is to certify that the foregoing information is true, accurate, and complete.
   I understand that payment and satisfaction of this claim will be from Federal and State funds, and that any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State Laws.

9. For CHAMPUS purposes:

   This is to certify that:

   (a) the information submitted as part of this claim is true, accurate and complete, and, the services shown on this form were medically indicated and necessary for the health of the patient;

   (b) the patient has represented that by a reported residential address outside a military treatment center catchment area he or she does not live within a catchment area of a U.S. military or U.S. Public Health Service medical facility, or if the patient resides within a catchment area of such a facility, a copy of a Non-Availability Statement (DD Form 1251) is on file, or the physician has certified to a medical emergency in any assistance where a copy of a Non-Availability Statement is not on file;

   (c) the patient or the patient's parent or guardian has responded directly to the provider's request to identify all health insurance coverages, and that all such coverages are identified on the face the claim except those that are exclusively supplemental payments to CHAMPUS-determined benefits;

   (d) the amount billed to CHAMPUS has been billed after all such coverages have been billed and paid, excluding Medicaid, and the amount billed to CHAMPUS is that remaining claimed against CHAMPUS benefits;

   (e) the beneficiary's cost share has not been waived by consent or failure to exercise generally accepted billing and collection efforts; and,

   (f) any hospital-based physician under contract, the cost of whose services are allocated in the charges included in this bill, is not an employee or member of the Uniformed Services. For purposes of this certification, an employee of the Uniformed Services is an employee, appointed in civil service (refer to 5 USC 2105), including part-time or intermittent but excluding contract surgeons or other personnel employed by the Uniformed Services through personal service contracts. Similarly, member of the Uniformed Services does not apply to reserve members of the Uniformed Services not on active duty.

   (g) based on the Consolidated Omnibus Budget Reconciliation Act of 1986, all providers participating in Medicare must also participate in CHAMPUS for inpatient hospital services provided pursuant to admissions to hospitals occurring on or after January 1, 1987.

   (h) if CHAMPUS benefits are to be paid in a participating status, I agree to submit this claim to the appropriate CHAMPUS claims processor as a participating provider. I agree to accept the CHAMPUS-determined reasonable charge as the total charge for the medical services or supplies listed on the claim form. I will accept the CHAMPUS-determined reasonable charge even if it is less than the billed amount, and also agree to accept the amount paid by CHAMPUS, combined with the cost-share amount and deductible amount, if any, paid by or on behalf of the patient as full payment for the listed medical services or supplies. I will make no attempt to collect from the patient (or his or her parent or guardian) amounts over the CHAMPUS-determined reasonable charge. CHAMPUS will make any benefits payable directly to me, if I submit this claim as a participating provider.

ESTIMATED CONTRACT BENEFITS

Avoiding Claim Errors

Claims are often denied or even returned to the provider before they can be processed. To avoid denials and returns, double check each claim form to confirm the following items are accurate. For more information on returned and denied claims, see the *Billing Procedures* chapter in this manual.

Common Claim Errors

Claim Error	Prevention
Required form locator is blank	Check the claim instructions earlier in this chapter for required form locators. If a required form locator is blank, the claim may either be returned or denied.
Client ID number missing or invalid	This is a required form locator (FL 60); verify that the client's Medicaid ID number is listed as it appears on the client's eligibility verification (see the *General Information For Providers, Client Eligibility* chapter).
Client name missing	This is a required form locator (FL 12); check that it is correct.
Medicaid provider number missing or invalid	The provider number is a 7-digit number assigned to the provider during Medicaid enrollment. Verify the correct **Medicaid** provider number is on the claim (FL 51).
PASSPORT provider name and ID number missing	When services are not provided by the client's PASSPORT provider, include the provider's PASSPORT number (FL 11). See the *PASSPORT and Prior Authorization* chapter in this manual).
Prior authorization number missing	When prior authorization (PA) is required for a service, the PA number must be listed on the claim in FL 63 (see *PASSPORT and Prior Authorization* in this manual).
Not enough information regarding other coverage	Form locators 39-41, 50, and in some cases 54, are required when a client has other coverage (refer to the examples earlier in this chapter).
Authorized signature missing	Each claim must have an authorized signature belonging to the provider, billing clerk, or office personnel. The signature may be typed, stamped, or hand-written.
Signature date missing	Each claim must have a signature date.
Incorrect claim form used	Services covered in this manual require a UB-92 claim form.
Information on claim form not legible	Information on the claim form must be legible. Use dark ink and center the information in the form locator. Information must not be obscured by lines.

Other Programs

This chapter also applies to claims forms completed for MHSP services. The information in this chapter does not apply to clients enrolled in the Children's Health Insurance Plan (CHIP). The CHIP Medical Manual is available through BlueCross BlueShield at (800) 447-7828 X8647.

Remittance Advices and Adjustments

Remittance Advice Description

The remittance advice (RA) is the best tool providers have to determine the status of a claim. RAs accompany payment for services rendered. The RA provides details of all transactions that have occurred during the previous remittance advice cycle. Providers may select a one or two week payment cycle (see *Payment and the RA* later in this chapter). Each line of the remittance advice represents all or part of a claim, and explains whether the claim has been paid, denied, or suspended (also referred to as pending). If the claim was suspended or denied, the RA also shows the reason. See the sample RA on the following page.

Due to HIPAA regulations, the APC and the lab panel it bundled to will not show on the RA.

RA notice

The RA notice is on the first page of the remittance advice. This section contains important messages about rate changes, revised billing procedures, and many other items that affect providers and claims.

Paid claims

This section shows claims paid during the previous cycle. It is the provider's responsibility to verify that claims were paid correctly. If Medicaid overpays a claim and the problem is not corrected, it may result in an audit and the provider having to return the overpayment plus interest. If a claim was paid at the wrong amount or with incorrect information, the claim must be adjusted (see *Adjustments* later in this chapter).

If a claim was denied, read the description of the reason and remark code before taking any action on the claim.

Denied claims

This section shows claims denied during the previous cycle. If a claim has been denied, refer to the Reason/Remark Codes column (Field 16). The reason and remark code description explains why the claim was denied and is located at the end of the RA. See *The Most Common Billing Errors and How to Avoid Them* in the *Billing Procedures* chapter. Please make necessary changes to the claim before rebilling Medicaid.

Pending claims

All claims that have not reached final disposition will appear in this area of the RA. The RA uses "suspended" and "pending" interchangeably. They both mean that the claim has not reached final disposition. If a claim is pending, refer to the Reason/Remark Code column (Field 16). The reason and remark code description located at the end of the RA will explain why the claim is suspended. This section is informational only. Please do not take any action on claims displayed here. Processing will continue until each claim is paid or denied.

The pending claims section of the RA is informational only. Do not take any action on the claims shown here.

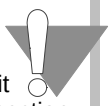
Key Fields on the Remittance Advice

Field	Description
1. Provider name and address	Provider's business name and address as recorded with the Department
2. Provider number	The 7-digit number assigned to the provider by Medicaid
3. Remittance advice number	The remittance advice number
4. Warrant number	Not used
5. Date	The date the RA was issued
6. Page Number	The page number of the RA
7. Recipient ID	The client's Medicaid ID number
8. Name	The client's name
9. Internal control number (ICN)	Each claim is assigned a unique 17-digit number (ICN). Use this number when you have any questions concerning your claim. The claim number represents the following information: 0 00111 11 123 000123 A B C D E A = Claim medium 0 = Paper claim 2 = Electronic claim 3 = Encounter claim 4 = System generated claim (mass adjustment, nursing home turn-around document, or point-of-sale (POS) pharmacy claim) B = Julian date (e.g. April 20, 2000 was the 111th day of 2000) C = Microfilm number 00 = Electronic claim 11 = Paper claim D = Batch number E = Claim number If the first number is: 0 = Regular claim 1 = Negative side adjustment claim (Medicaid recovers payment) 2 = Positive side adjustment claim (Medicaid reprocesses)
10. Service dates	Date(s) services were provided. If service(s) were performed in a single day, the same date will appear in both columns
11. Unit of service	The units of service rendered under this procedure, NDC code or revenue code.
12. Procedure/revenue/NDC	The procedure code (CPT, HCPCS, or local), National Drug Code (NDC), or revenue code will appear in this column. If a modifier was used, it will also appear in this column.
13. Total charges	The amount a provider billed for this service.
14. Allowed	The Medicaid allowed amount.
15. Copay	A "Y" indicates cost sharing was deducted from the allowed amount, and an "N" indicates cost sharing was not deducted.
16. Reason/Remark code	A code which explains why the service was denied or pended. Descriptions of these codes are listed at the end of the RA.
17. Deductions, billed amount, and paid amount	Any deductions, such as cost sharing or third party liability are listed first. The amount the provider billed is next, followed by the amount of Medicaid reimbursement.

Claims shown as pending with reason code 133 require additional review before a decision to pay or deny is made. If a claim is being held while waiting for client eligibility information, it may be suspended for a maximum of 30 days. If Medicaid receives eligibility information within the 30-day period, the claim will continue processing. If no eligibility information is received within 30 days, the claim will be denied. When a claim is denied for lack of eligibility, the provider should verify that the correct Medicaid ID number was billed. If the ID number was incorrect, resubmit the claim with the correct ID number.

Credit balances

Credit balances occur when claim adjustments reduce original payments causing the provider to owe money to the Department. These claims are considered in process and continue to appear on the RA until the credit has been satisfied.



The credit balance section is informational only. Do not post from credit balance statements.

Credit balances can be resolved in two ways:

1. By "working off" the credit balance. Remaining credit balances can be deducted from future claims. These claims will continue to appear on consecutive RAs until the credit has been paid.
2. By sending a check payable to DPHHS for the amount owed. This method is required for providers who no longer submit claims to Montana Medicaid. Please attach a note stating that the check is to pay off a credit balance and include your provider number. Send the check to the attention of the *Provider Relations Field Representative* at the Provider Relations address in *Key Contacts*.

Rebilling and Adjustments

Rebillings and adjustments are important steps in correcting any billing problems you may experience. Knowing when to use the rebilling process versus the adjustment process is important.

Medicaid does not accept any claim for resubmission or adjustment after 12 months from the date of service (see *Timely Filing Limits* in *Billing Procedures* chapter).

How long do I have to rebill or adjust a claim?

- Providers may resubmit or adjust any initial claim within the timely filing limits described in the *Billing Procedures* chapter of this manual.
- These time periods do not apply to overpayments that the provider must refund to the Department. After the 12 month time period, a provider may not refund overpayments to the Department by completing a claim adjustment. The provider may refund overpayments by issuing a check or requesting Provider Relations (see *Credit balances* #2 above) to complete a gross adjustment.

Rebilling Medicaid

Rebilling is when a provider submits a claim to Medicaid that was previously submitted for payment but was either returned or denied. Claims are often returned to the provider before processing because key information such as Medicaid provider number or authorized signature and date are missing or unreadable. For tips on preventing returned or denied claims, see the *Billing Procedures* and *Completing a Claim* chapters.

When to rebill Medicaid

Rebill denied claims only after appropriate corrections have been made.

- ***Claim Denied.*** Providers can rebill Medicaid when a claim is denied in full, as long as the claim was denied for reasons that can be corrected. When the entire claim is denied, check the reason and remark code, make the appropriate corrections, and resubmit the claim on a UB-92 form (not the adjustment form).
- ***Claim Returned.*** Rebill Medicaid when the claim is returned under separate cover. Occasionally, Medicaid is unable to process the claim and will return it to the provider with a letter stating that additional information is needed to process the claim. Correct the information as directed and resubmit your claim.

How to rebill

- Check any reason and remark code listed and make your corrections on a copy of the claim, or produce a new claim with the correct information.
- Enter any insurance (TPL) information on the corrected claim, or attach insurance denial information to the corrected claim, and send it to Claims Processing (see *Key Contacts*).

Adjustments

If a provider believes that a claim has been paid incorrectly, the provider may call Provider Relations (see *Key Contacts*) or submit a claim inquiry for review (see the *Billing Procedures* chapter, *Claim Inquiries*). Once an incorrect payment has been verified, the provider may submit an *Individual Adjustment Request* form (in *Appendix A*) to Provider Relations. If incorrect payment was the result of an ACS keying error, contact Provider Relations.

When adjustments are made to previously paid claims, the Department recovers the original payment and issues appropriate repayment. The result of the adjustment appears on the provider's RA as two transactions. The original payment will appear as a credit transaction. The replacement claim reflecting the corrections will be listed as a separate transaction and may or may not appear on the same RA as the credit transaction. The replacement transaction will have nearly the same ICN number as the credit transaction, except the 12th

Adjustments can only be made to paid claims.

digit will be a 2, indicating an adjustment. See *Key Fields on the Remittance Advice* earlier in this chapter. Adjustments are processed in the same time frame as claims.

When to request an adjustment

- Request an adjustment when a claim was overpaid or underpaid.
- Request an adjustment when a claim was paid but the information on the claim was incorrect (such as client ID, provider number, date of service, procedure code, diagnoses, units, etc.).
- Request an adjustment when a single line on a multi-line claim was denied.

How to request an adjustment

To request an adjustment, use the *Montana Medicaid Individual Adjustment Request* form in *Appendix A*. The requirements for adjusting a claim are as follows:

- Claims Processing must receive individual claim adjustment requests within 12 months from the date of service (see *Timely Filing Limits* in the *Billing Procedures* chapter). After this time, *gross adjustments* are required (see *Definitions*).
- Use a separate adjustment request form for each ICN.
- If you are correcting more than one error per ICN, use only one adjustment request form, and include each error on the form.
- If more than one line of the claim needs to be adjusted, indicate which lines and items need to be adjusted in the *Remarks* section of the adjustment form.

Completing an Adjustment Request Form

1. Copy the *Montana Medicaid Individual Adjustment Request* form from *Appendix A*. You may also order forms from Provider Relations or download them from the Provider Information website (see *Key Contacts*). Complete Section A first with provider and client information and the claim's ICN number (see following table and sample RA).
2. Complete Section B with information about the claim. Remember to fill in only the items that need to be corrected (see following table):
   - Enter the date of service or the line number in the *Date of Service or Line Number* column.
   - Enter the information from the claim form that was incorrect in the *Information on Statement* column.
   - Enter the correct information in the column labeled *Corrected Information*.

Completing an Individual Adjustment Request Form

Field	Description
Section A	
1. Provider name and address	Provider's name and address (and mailing address if different).
2. Recipient name	The client's name is here.
3.* Internal control number (ICN)	There can be only one ICN per adjustment request form. When adjusting a claim that has been previously adjusted, use the ICN of the most recent claim.
4.* Provider number	The provider's Medicaid ID number.
5.* Recipient Medicaid number	Client's Medicaid ID number.
6. Date of payment	Date claim was paid is found on remittance advice field #5 (see the sample RA earlier in this chapter).
7. Amount of payment	The amount of payment from the remittance advice field #17 (see the sample RA earlier in this chapter.).
Section B	
1. Units of service	If a payment error was caused by an incorrect number of units, complete this line.
2. Procedure code/ NDC/ Revenue code	If the procedure code, NDC, or revenue code is incorrect, complete this line.
3. Dates of service (D.O.S)	If the date(s) of service is incorrect, complete this line.
4. Billed amount	If the billed amount is incorrect, complete this line.
5. Personal resource (Nursing facility)	If the client's personal resource amount is incorrect, complete this line.
6. Insurance credit amount	If the client's insurance credit amount is incorrect, complete this line.
7. Net (Billed – TPL or Medicare paid)	If the payment error was caused by a missing or incorrect insurance credit, complete this line. Net is billed amount minus the amount third party liability or Medicare paid.
8. Other/Remarks	If none of the above items apply, or if you are unsure what caused the payment error, complete this line.

* Indicates a required field

3. Attach copies of the RA and a corrected claim if necessary.
   - If the original claim was billed electronically, a copy of the RA will suffice.
   - If the RA is electronic, attach a screen print of the RA.
4. Verify the adjustment request has been signed and dated.
5. Send the adjustment request to Claims Processing (see *Key Contacts*).

- If an original payment was an underpayment by Medicaid, the adjustment will result in the provider receiving the additional payment amount allowed.

Sample Adjustment Request

- If an original payment was an overpayment by Medicaid, the adjustment will result in recovery of the overpaid amount through a credit. If the result is a credit balance, it can be worked off or the provider can pay off the balance by check (see *Credit balances* earlier in this chapter).
- Any questions regarding claims or adjustments must be directed to Provider Relations (see *Key Contacts*).

Mass adjustments

Mass adjustments are done when it is necessary to reprocess multiple claims. They generally occur when:

- Medicaid has a change of policy or fees that is retroactive. In this case federal laws require claims affected by the changes to be mass adjusted.
- A system error that affected claims processing is identified.

Providers are informed of mass adjustments on the first page of the remittance advice (RA Notice section). Mass adjustment claims shown on the RA have an ICN that begins with a "4" (see *Key Fields on the Remittance Advice* earlier in this chapter).

Payment and The RA

Providers may receive their Medicaid payment and remittance advice either weekly or biweekly. Payment can be via check or electronic funds transfer (EFT). Direct deposit is another name for EFT. Providers who wish to receive weekly payment must request both EFT and electronic RAs and specifically request weekly payment. For biweekly payment, providers can choose any combination of paper/electronic payment method and RA.

Electronic Funds Transfer

With EFT, the Department deposits the funds directly to the provider's bank account. If the scheduled deposit day is a holiday, funds will be available on the next business day. This process does not affect the delivery of the remittance advice that providers currently receive with payments. RAs will continue to be mailed to providers unless they specifically request an electronic RA.

Weekly payments are available only to providers who receive both EFT **and** electronic RAs.

To participate in EFT, providers must complete a *Direct Deposit Sign-Up Form* (Standard Form 1199A) (see the following table). One form must be completed for each provider number.

Once electronic transfer testing shows payment to the provider's account, all Medicaid payments will be made through EFT. See *Direct Deposit Arrangements* under *Key Contacts* for questions or changes regarding EFT.

Electronic Remittance Advice

To receive an electronic RA, the provider must be enrolled in electronic funds transfer and have internet access. You can access your electronic RA through the Montana Eligibility and Payment System (MEPS) on the internet through the Virtual Human Services Pavilion (see *Key Contacts*). In order to access MEPS, you must complete an *Access Request Form* (see the following table).

Electronic RAs are available for only six weeks on MEPS.

After this form has been processed, you will receive a password. Entry into the system requires a valid provider or group number and password. Each provider or group number requires a unique password, so providers must complete a separate request form for each provider or group.

RAs are available from MEPS in PDF and a flat file format. You can read, print, or download PDF files using Adobe Acrobat Reader, which is available on the "SOR Download" page. The file layout for flat files is also available on the SOR download page. Due to space limitations, each RA is only available for six weeks.

Required Forms For EFT and/or Electronic RA

All three forms are required for a provider to receive weekly payment

Form	Purpose	Where to Get	Where to Send
Electronic Remittance Advice and Payment Cycle Enrollment Form	Allows provider to receive electronic remittance advices on MEPS (must also include MEPS Access Request form)	• Provider Information website • Provider Relations (see *Key Contacts*)	Provider Relations (see *Key Contacts*)
Direct Deposit Sign-up Form Standard Form 1199A	Allows the Department to automatically deposit Medicaid payment into provider's bank account	• Provider Information website (see *Key Contacts*) • Provider's bank	Provider Relations (see *Key Contacts*)
MEPS Access Request Form	Allows provider to receive a password to access their RA on MEPS	• Provider Information website • Virtual Human Services Pavilion • Direct Deposit Arrangements (see *Key Contacts)*	DPHHS address on the form

Other Programs

The information in this chapter applies to outpatient hospital services for clients who are enrolled in the Mental Health Services Plan (MHSP). The information in this chapter does not apply to clients enrolled in the Children's Health Insurance Plan (CHIP). The CHIP Medical Manual is available through BlueCross BlueShield at (800) 447-7828 X8647.

How Payment Is Calculated

Overview

Though providers do not need the information in this chapter to submit claims to the Department, the information allows providers to understand how payment is calculated and to predict approximate payment for particular claims.

Critical Access and Exempt Hospitals

Critical access hospitals (CAHs) and exempt hospitals are reimbursed for their costs of providing care, as determined through the annual cost settlement process. In the interim, these hospitals are paid a hospital-specific percentage of their charges. The percentage equals the hospital's estimated cost-to-charge ratio as determined from time to time by the Department.

Exempt hospital are those hospitals that are exempt from the Department's prospective payment methods (both inpatient and outpatient) because they are located in isolated, rural counties. Exempt status is determined by the Department. In practice, almost all hospitals that would qualify as exempt hospitals have converted to critical access hospital states.

The Outpatient Prospective Payment System

The outpatient prospective payment system (OPPS) applies to all facilities that are not designated CAH hospitals, exempt hospitals or Indian Health Services (IHS) and includes border and out-of-state facilities. Most services in the outpatient hospital setting are paid using the Ambulatory Payment Classification (APC) system developed by Medicare. The Department has adopted Medicare definitions and weights for APCs for the most part. Exceptions are discussed below.

APC payments are based on CPT and HCPCS procedure codes. Most procedure codes are assigned to a specific APC. Each APC is assigned a relative weight reflecting the resources required for that particular group of procedures. APC assignments and relative weights are reviewed and updated several times each year by Medicare. It is the intention of the Department to update the Medicaid APC method each April.

The following illustrates how APC payments are calculated. Relative weights and the current conversion factor are published by the Department and available on the fee schedule section of the website. Weights are set by Medicare. The conversion

factor is determined by the Department. These examples are for illustration only. The numerical amounts reflect rates as of August 1, 2003, but may not apply at other times.

Fee calculation
Each APC fee is the product of a relative value times a conversion factor. For example, the fee for a chest x-ray (CPT code 71010, APC 0260) is:

0.7655 relative weight X conversion factor of $47.75 = $36.55

The fee for a high-level emergency department visit (CPT code 99285, APC 0612) is:

4.341 relative weight X conversion factor of $47.75 = $207.28

Exceptions to the APC methodology

Several services in the outpatient setting are paid through methods other than the APC method. Those exceptions to the APC method include:

- Laboratory services
- Therapy services (physical therapy, speech therapy and occupational therapy)
- Partial hospitalization services
- Dental services
- Screening mammography
- Blood draws
- Immunizations
- Non-emergency visits to the emergency department (ED)

Lab services

Almost all laboratory services are paid using the same fees that Medicare pays to Montana providers. The exceptions are those few laboratory codes that have an APC assignment from Medicare as well as several codes that are covered by Medicaid but not Medicare.

When lab codes that make up an organ or disease oriented panel are billed as individual tests, Medicaid will bundle these codes into the correct panel and pay the panel fee.

Therapy services

Therapy services are paid using the same fee schedule that DPHHS pays therapists in private practice, which is 90% of the RBRVS fee schedule for the applicable codes.

Partial hospitalization services

Partial hospitalization services are paid on a fee schedule. The appropriate code is H0035, which should be billed with revenue code 912. For service levels other than sub-acute, half day, providers must use one of three Montana-specific modifiers listed in the following table.

Current Payment Rates for Partial Hospitalization

Code	Modifier	Service Level	Payment Rate
H0035		Partial hospitalization, sub-acute, half day	$71.99
H0035	U6	Partial hospitalization, sub-acute, full day	$95.38
H0035	U7	Partial hospitalization, acute, half day	$113.34
H0035	U8	Partial hospitalization, acute, full day	$151.12

Dental services

Some dental services have an APC assignment and are paid according to the APC payment method. Those dental services that are allowed in the outpatient setting but do not have an APC assignment are paid a fee according to the outpatient hospital fee schedule.

Screening mammography

Screening mammography services are paid using the same rate as the Department pays 76092-TC under the physician program.

Blood draws

Blood draws (HCPCS code G0001) are paid using the current fee schedule.

Immunizations

Some immunizations are paid by APC and others are not. If an immunization service is not paid in the APC section then a fee is paid in the miscellaneous services section. The fee is the same as the RBRVS-based fee paid to physicians. If the client is under 19 years old and the vaccine is available to providers for free under the Vaccines for Children program, then the payment to the hospital is zero. Immunization administration is considered an incidental service. The claims processing system bundles immunization administration with other services on the claim and pays it at zero.

Non-emergency visits to the emergency department (ED)

If a claim for a visit includes at least one line with an emergency department (ED) revenue code (e.g., 450-459) then payment for the visit will depend on whether it meets the emergency criteria (see *Emergency department visits* in the *Covered Services* chapter of this manual). Claims that meet the emergency criteria are paid as usual by the APC based method.

If the claim does not meet the emergency criteria, then:

- The first ED revenue code is paid at a screening and evaluation fee that is subject to cost share.
- All other ED revenue code (45X) lines on the claim are paid at zero.
- Diagnostic services necessary to assess the patient's condition (e.g., lab, imaging, other diagnostic services) are paid as they otherwise would have been.
- All other services on the claim (e.g., drugs, IV therapy) are paid at zero.

Other Issues

Observation services

DPHHS will follow the Medicare program in making separate payment for observation care procedure codes only if the patient has a primary diagnosis of asthma, chest pain or congestive heart failure, and has met certain other conditions. In addition, the Department will pay for observation care in cases with the potential for obstetric complications. The list of diagnoses that is used to define a potential obstetric qualification is taken from Diagnosis Related Groups 382 (false labor) and 383 (other antepartum diagnoses with medical complications). If an observation service does not meet the criteria for asthma, chest pain, CHF or obstetric complications then payment for observation care is considered bundled into the payment for other services.

Outpatient clinic services

When Medicaid pays a hospital for outpatient or provider based clinic services, the separate claim for the physician's services must show the hospital as the place of service (i.e., place of service is 22 for hospital outpatient). This place of service code will result in lower payment to the physician, thus minimizing what would otherwise be double payment for office expenses.

Pass-through payments

Payments for certain drugs, devices and supplies are designated as "pass-through." In a few cases, these codes have APC weights; in most cases, payment is by report.

Packaged services

Payment for some services is always considered bundled into payment for other services. (The APC term for bundling is packaging.) In other cases, the service are bundled for some visits but not for others. For example, payment for IV therapy is considered bundled within the payment for a surgical visit but not for a medical visit. Medicare developed the relative weights for surgical, medical and other types of visits so that the weights reflect the packaging rules used in the APC method.

Procedures considered inpatient only by Medicare

Medicare has designated some procedures as "inpatient only." Medicaid has adopted that designation as well. When these procedures are performed in the outpatient hospital setting, the claim is denied. Hospitals may appeal the denial to the prior authorization contractor (see *Key Contacts*). If payment is approved, then the claim would be paid by report.

Charge cap

For services covered in the outpatient hospital setting, Medicaid pays the lower of the Medicaid fee or the provider's charge. The charge cap is applied at the claim level for outpatient hospital services, not at the line level. Therefore it is possible that a provider may be paid more than charges for any given line on a claim.

Payment by report

A few services covered in the outpatient hospital setting do not have an established fee. For these services, payment is at the provider's outpatient cost to charge ratio as determined by the Department.

Status indicator codes

The line-level status indicator codes explain how payment was calculated at the line. The codeset used by DPHHS is based on the codeset used by Medicare but with several additions. See the following table of status indicator codes.

Status Indicator Codes Used by DPHHS

Code	Description	Origin	Comments
W	Excluded service	DPHHS	Indicates service in a prospective payment hospital that is excluded from the APC-based prospective payment method (i.e., CRNA).
G	Drug/biological under trans. pass-through	Medicare	
H	Device under trans. pass-through	Medicare	
J	New drug/biological under trans. pass-through	Medicare	
N	Incidental services (bundled)	Medicare	
T	Surgical services	Medicare	
C	Inpatient services	Medicare	
K	Non-pass-through drugs and biologicals	Medicare	
S	Significant procedures	Medicare	
X	Ancillary service	Medicare	
V	Medical visit		
B	Services not paid under OPPS	Medicare	
P	Partial hospitalization	Medicare	
Q	Clinical lab	DPHHS	
Y	Therapy	DPHHS	Indicates therapy service priced using RBRVS fee schedule
M	Misc. codes	DPHHS	

Modifiers

Certain modifiers affect the way a service is paid. As of August 2003, the modifiers that change pricing are shown in the following table.

How Modifiers Change Pricing

- Modifiers may not be applicable for all services.
- Modifiers may affect surgical services differently than non-surgical services. Surgical services are those with a status indicator of "T".
- If a modifier does not appear in this list, then it does not affect pricing of outpatient hospital claims.
- The list shows summary modifier descriptions. See the CPT-4 and HCPCS Level II coding books for the full text.
- Only the first modifier listed on the line item will affect payment. Discontinued or reduced service modifiers (52 and 73) should be listed before other pricing modifiers.

Modifier	Definition	How it affects payment
25	Significant, separately identifiable E&M	The service is paid at 100% of the APC price or fee schedule (rather than being denied as a duplicate billing).
50	Bilateral procedure	For non-surgical services, or for single surgical services the service is paid at 150% of the APC price or fee schedule. For multiple surgical services, the highest paid service is paid at 150% of the APC price, and additional surgical services are paid at 75% of the APC price.
52	Reduced services	The service is paid at 50% of the APC price or fee schedule.
73	Procedure discontinued prior to anesthesia	For single surgical services, the service is paid at 50% of the APC price. For multiple surgical services, the highest paid service is paid at 50% of the APC price, and additional surgical services are paid at 25% of the APC price. For non-surgical services, the service is paid at 100% of the APC price or fee schedule.
74	Procedure discontinued after anesthesia induction	The service is paid at 100% of the APC price or fee schedule.
91	Repeat lab test	The service is paid at 100% of the APC price or fee schedule (rather than being denied as a duplicate billing).
U6	Full day-sub-acute partial hospitalization	The partial hospitalization service is paid at 132.49% of the base fee.
U7	Part day acute partial hospitalization	The partial hospitalization service is paid a 157.44% of the base fee.
U8	Full day acute partial hospitalization	The partial hospitalization service is paid at 209.92% of the base fee.

How payment is calculated on TPL claims

When a client has coverage from both Medicaid and another insurance company, the other insurance company is often referred to as Third Party Liability or TPL. In these cases, the other insurance is the primary payer (as described in the *Coordination of Benefits* chapter of this manual), and Medicaid makes a payment as the secondary payer. Medicaid will make a payment only when the TPL payment is less than the Medicaid allowed amount.

How payment is calculated on Medicare crossover claims

When a client has coverage from both Medicare and Medicaid, Medicare is the primary payer. Medicaid will pay the coinsurance and deductible, less any TPL or Incurment, on outpatient hospital claims for these dually eligible individuals.

Payment examples for dually eligible clients

Client has Medicare and Medicaid coverage. A provider submits an outpatient hospital claim for a client with Medicare and Medicaid. The Medicare coinsurance and deductible are $65.00 and $185.00. This total ($250.00) becomes the Medicaid allowed amount. Medicaid will pay this amount ($250.00) as long as no TPL or incurment amounts are applicable.

Client has Medicare, Medicaid, and TPL. A provider submits an outpatient hospital claim for a client with Medicare, Medicaid, and TPL. The Medicare coinsurance and deductible are $65.00 and $185.00. This total ($250.00) becomes the Medicaid allowed amount. The other insurance company paid $225.00. This amount is subtracted from the Medicaid allowed amount leaving $25.00. Medicaid pays $25.00 for this claim. If the TPL payment had been $250.00 or more, this claim would have paid at $0.00.

Client has Medicare, Medicaid, and Medicaid Incurment. A provider submits an outpatient hospital claim for a client with Medicare, Medicaid, and a Medicaid Incurment. The Medicare coinsurance and deductible are $65.00 and $185.00. This total ($250.00) becomes the Medicaid allowed amount. The client owes $150 for his Medicaid Incurment, so this amount is subtracted from the $250.00. Medicaid will pay the provider $100.00 for this claim.

STATE OF MONTANA
DEPARTMENT OF PUBLIC HEALTH AND HUMAN SERVICES
INFORMED CONSENT TO STERILIZATION

Medicaid Approved

NOTICE: YOUR DECISION AT ANY TIME NOT TO BE STERILIZED WILL NOT RESULT IN THE WITHDRAWAL OR WITHHOLDING OF ANY BENEFITS PROVIDED BY PROGRAMS OR PROJECTS RECEIVING FEDERAL FUNDS.

CONSENT TO STERILIZATION

I have asked for and received information about sterilization from _____. When I first asked for
(Doctor or Clinic)
the information, I was told that the decision to be sterilized is completely up to me. I was told that I could decide not to be sterilized. If I decide not to be sterilized, my decision will not affect my right to future care to treatment. I will not lose any help or benefits from programs receiving Federal funds, such as AFDC or Medicaid that I am now getting or for which I may become eligible.

I UNDERSTAND THAT THE STERILIZATION MUST BE CONSIDERED **PERMANENT** AND **NOT REVERSIBLE**. I HAVE DECIDED THAT I DO NOT WANT TO BECOME PREGNANT, BEAR CHILDREN OR FATHER CHILDREN.

I was told about those temporary methods of birth control that are available and could be provided to me which will allow me to bear or father a child in the future. I have rejected those alternatives and chosen to be sterilized.

I understand that I will be sterilized by an operation known as a _____. The discomforts, risks and benefits associated with the operation have been explained to me. All my questions have been answered to my satisfaction.

I understand that the operation will not be done until at least thirty days after I sign this form. I understand that I can change my mind at any time and that my decision at any time not to be sterilized will not result in the withholding of any benefits or medical services provided by Federally funded programs.

I am at least 21 years of age and was born on _____
(month) (day) (year)
I, _____, hereby consent of my own free will to be sterilized by _____
(Doctor)
by a method called _____. My consent expires 180 days from the date of my signature below.

I also consent to the release of this form and other medical records about the operation to:

Representatives of the Department of Health & Human Services or Employees of programs or projects funded by that department but only for determining if Federal laws were observed.

I have received a copy of this form.

INTERPRETER'S STATEMENT

If an interpreter is provided to assist the individual to be sterilized:

I have translated the information and advice presented orally to the individual to be sterilized by the person obtaining this consent. I have also read him/her the consent form in _____ language and explained its contents to him/her. To the best of my knowledge and belief he/she understood this explanation.

_____
(Interpreter) **(Date)**

STATEMENT OF PERSON OBTAINING CONSENT

Before _____ signed
(name of individual)
the consent form, I explained to him/her the nature of the sterilization operation _____, the fact that it is intended to be a final and irreversible procedure and the discomforts, risks and benefits associated with it.

I counseled the individual to be sterilized that alternative methods of birth control are available which are temporary. I explained that sterilization is different because it is permanent.

I informed the individual to be sterilized that his/her consent can be withdrawn at any time and that he/she will not lose any health services or any benefits provided by Federal funds.

To the best of my knowledge and belief, the individual to be sterilized is as least 21 years old and appears mentally competent. He/she knowingly and voluntarily requested to be sterilized and appears to understand the nature and consequences of the procedure.

PHYSICIAN'S STATEMENT

Shortly before I performed a sterilization operation upon
_____
(Name of person being sterilized)
on _____
(date of sterilization operation)
I explained to him/her the nature of the sterilization operation _____, the fact that it is
(specify type of operation)
intended to be a final and irreversible procedure and the discomforts, risks and benefits associated with it.

I counseled the individual to be sterilized that alternative methods of birth control are available which are temporary. I explained that sterilization is different because it is permanent.

I informed the individual to be sterilized that his/her consent can be withdrawn at any time and that he/she will not lose any health services or benefits provided by Federal funds.

To the best of my knowledge and belief, the individual to be sterilized is at least 21 years old and appears mentally competent. He/she knowingly and voluntarily requested to be sterilized and appeared to understand the nature and consequences of the procedure

(Instructions for use of alternative final paragraphs: Use the first paragraph below except in the case of premature delivery or emergency abdominal surgery where the sterilization is performed less than 30 days after the date of the individual's signature on the consent form. In those cases, the second paragraph below must be used. Cross out the paragraph which is not used.)

(1) At lease thirty days have passed between the date of the individual's signature on this consent form and the date the sterilization was performed.

(2) This sterilization was performed less than 30 days but more than 72 hours after the date of the individual's signature on this consent form because of the following circumstances (check applicable box and fill in information requested):

- ☐ Premature delivery
- ☐ Individual's expected date of delivery: _____
- ☐ Emergency abdominal surgery:

(describe circumstances):_____
_____

_____
(Physician) **(Date)**

DISTRIBUTION: 1 - patient; 1 - provider (physician, hospital, etc.); 1 - fiscal agent with claim

Instructions for Completing the *Informed Consent to Sterilization* (MA-38)

- No fields on this form may be left blank, except the interpreter's statement.
- This form must be legible, accurate, and revisions are not accepted.
- Do not use this form for hysterectomies (see following *Hysterectomy Acknowledgment* form.)

Consent to Sterilization (complete at least 30 days prior to procedure)

1. Enter the doctor's name or clinic name.
2. Enter the name of the sterilization procedure (e.g., tubal ligation, vasectomy, etc.).
3. Enter the client's date of birth in month/day/year format. The client must be at least 21 years old at the time of consent.
4. Enter the client's full name. Do not use nicknames. The name should match the client's name on the Medicaid ID card.
5. Enter the name of the physician who will perform the procedure.
6. Enter the name of the specific procedure (method) to be used.
7. Have the client sign and date the form. **This date must be at least 30 days before the sterilization procedure is to be performed** (see *Covered Services* for exceptions).

Interpreter's Statement

Complete this section only if the client requires an interpreter because of blindness, deafness, or inability to speak the language. In these cases interpreter services must be used to assure that the client clearly understands the concepts of the informed consent.

1. Identify the manner the interpreter used to provide the explanation. (e.g., Spanish, sign language, etc.)
2. Have the interpreter sign and date the form. This date should be the same as the date the client signs the form.

Statement of Person Obtaining Consent

1. Enter the client's name.
2. Enter the name of the sterilization procedure.
3. Enter the signature and date of the person who explained the sterilization procedure to the client and obtained the consent.
4. Enter the name of the facility where consent was obtained, such as clinic name.
5. Enter the address of the facility where the consent was obtained.

Physician's Statement

This section must be completed by the attending physician on or after the date the procedure was performed.

1. Enter the name of the client.
2. Enter the date the procedure was performed. This date and the date of service on the claim must match.
3. Enter the name of the procedure.
4. Use the space under *Instructions for use of alternative final paragraphs* to explain unusual situations, or attach a letter to explain the circumstances. In cases of premature delivery, this must include the client's expected date of delivery. In cases of emergency abdominal surgery, include an explanation of the nature of the emergency.
5. The Physician signs and dates on or after the date of the procedure.

If the physician signs and dates this section prior to the sterilization procedure, the claims will be denied. If the form was filled out after the sterilization but was dated incorrectly, the physician must attach a written explanation of the error. This written explanation must be signed by the physician. Copies of the letter will need to be supplied to all other providers involved with this care before their claims will be paid.

The attending physician must complete the second *alternative final paragraphs* of the Physician's Statement portion of the consent form in cases of premature deliver or emergency abdominal surgery. In cases of premature delivery, the expected delivery date must be completed in this field as well.

MEDICAID HYSTERECTOMY ACKNOWLEDGMENT

A. RECIPIENT ACKNOWLEDGMENT STATEMENT

I certify that prior to the surgery (hysterectomy), I received both orally and in writing information which explained that I would become permanently sterile and that I would be incapable of reproducing children after the surgery is completed.

Signature of Recipient: _____ Date: _____

PHYSICIAN ACKNOWLEDGMENT STATEMENT

I certify that prior to performing the surgery, I advised _____ *(Name of Recipient)* both orally and in writing that the surgical procedure known as a hysterectomy would render her permanently sterile and that she would be incapable of reproducing children after the surgical procedure is completed. I also certify that this procedure is being done primarily for medical reasons other than sterilization.

Signature of Physician: _____ Date: _____

SIGNATURE OF INTERPRETER (If Required)

Signature of Interpreter: _____ Date: _____

B. STATEMENT OF PRIOR STERILITY

I certify that _____ *(Name of Recipient)* was already sterile and unable to bear children at the time the hysterectomy or other procedure capable of causing sterility was performed. The cause of this recipient's sterility was: _____

_____

_____

Signature of Physician: _____ Date: _____

C. STATEMENT OF LIFE THREATENING EMERGENCY

I certify that the hysterectomy or other sterility causing procedure performed on _____ *(Name of Recipient)* was completed under a life threatening emergency situation in which prior acknowledgment was not possible. The nature of the emergency was _____

_____

_____

Signature of Physician: _____ Date: _____

This form may also be used as a substitute for the sterilization consent form for sterilization procedures where the patient is already sterile and for sterilization procedures (i.e., salpingo-oophorectomy, orchiectomy) done only for medical reasons. With these cases, replace "hysterectomy" with the appropriate procedure name.

Instructions for Completing the *Medicaid Hysterectomy Acknowledgment* Form (MA-39)

Complete only one section (A, B, or C) of this form. The client does not need to sign this form when sections B or C are used. This form may be used as a substitute for the *Informed Consent to Sterilization* form for sterilization procedures where the client is already sterile, and for sterilization procedures (i.e. salpingo-oophorectomy, orchiectomy, etc.) done only for medical reasons. In these cases, replace the word "hysterectomy" with the appropriate procedure name.

A. Recipient Acknowledgment Statement

This section is used to document that the client received information about the hysterectomy (or other sterilization-causing procedure such as salpingo-oophorectomy or orchiectomy) before it was performed. The client and the physician must complete this portion of the form together (with an interpreter if applicable) prior to the procedure. Do **not** use this section for cases of prior sterility or life-threatening emergency.

1. The client or representative must sign and date the form prior to the procedure.
2. Enter the client's name.
3. The physician must sign and date the form prior to the procedure.
4. If interpreter services are used, the interpreter must sign and date the form prior to the procedure.

B. Statement of Prior Sterility

Complete this section if the client was already sterile at the time of her hysterectomy or other sterilization causing procedure (e.g., salpingo-oophorectomy or orchiectomy).

1. Enter the client's name.
2. Explain the cause of the client's sterility (e.g., post menopausal, post hysterectomy, etc.).
3. The physician must sign and date this portion of the form.

C. Statement of Life Threatening Emergency

Complete this section in cases where the *Medicaid Hysterectomy Acknowledgment* could not be completed prior to the surgery because of a life threatening emergency.

1. Enter the client's name.
2. Explain the nature of the life-threatening emergency.
3. The physician must sign and date this portion of the form.

Definitions and Acronyms

This section contains definitions, abbreviations, and acronyms used in this manual.

Administrative Rules of Montana (ARM)
The rules published by the executive departments and agencies of the state government.

Allowed Amount
The maximum amount reimbursed to a provider for a health care service as determined by Medicaid or another payer. Other cost factors, (such as cost sharing, TPL, or incurment) are often deducted from the allowed amount before final payment. Medicaid's allowed amount for each covered service is listed on the Department fee schedule.

Ancillary Provider
Any provider that is subordinate to the client's primary provider, or providing services in the facility or institution that has accepted the client as a Medicaid client.

Assignment of Benefits
A voluntary decision by the client to have insurance benefits paid directly to the provider rather than to the client. The act requires the signing of a form for the purpose. The provider is not obligated to accept an assignment of benefits. However, the provider may require assignment in order to protect the provider's revenue.

Authorization
An official approval for action taken for, or on behalf of, a Medicaid client. This approval is only valid if the client is eligible on the date of service.

Basic Medicaid
Patients with Basic Medicaid have limited Medicaid services. See the *General Information For Providers* manual, *Appendix A: Medicaid Covered Services*.

Bundled
Items or services that are deemed integral to performing a procedure or visit are not paid separately in the APC system. They are packaged (also called bundled) into the payment for the procedure or visit. Medicare developed the relative weights for surgical, medical and other types of visits so that the weights reflect the packaging rules used in the APC method. Items or services that are packaged receive a status code of "N".

Cash Option
Cash option allows the client to pay a monthly premium to Medicaid and have Medicaid coverage for the entire month rather than a partial month.

Centers for Medicare and Medicaid Services (CMS)
Administers the Medicare program and oversees the state Medicaid programs. Formerly the Health Care Financing Administration (HCFA).

Children's Health Insurance Plan (CHIP)
This plan covers some children whose family incomes make them ineligible for Medicaid. DPHHS sponsors the program, which is administered by BlueCross BlueShield of Montana.

Clean Claim
A claim that can be processed without additional information from or action by the provider of the service.

Client
An individual enrolled in a Department medical assistance program.

Code of Federal Regulations (CFR)
Rules published by executive departments and agencies of the federal government.

Coinsurance
The client's financial responsibility for a medical bill as assigned Medicare (usually a percentage). Medicare coinsurance is usually 20% of the Medicare allowed amount.

Conversion Factor
A state specific dollar amount that converts relative values into an actual fee. This calculation allows each payer to adopt the RBRVS to its own economy.

Copayment
The client's financial responsibility for a medical bill as assigned by Medicaid (usually a flat fee).

Cosmetic
Serving to modify or improve the appearance of a physical feature, defect, or irregularity.

Cost Sharing
The client's financial responsibility for a medical bill assessed by flat fee or percentage of charges.

Crossovers
Claims for clients who have both Medicare and Medicaid. These claims may come electronically from Medicare or directly from the provider.

DPHHS, State Agency
The Montana Department of Public Health and Human Services (DPHHS or Department) is the designated State Agency that administers the Medicaid program. The Department's legal authority is contained in Title 53, Chapter 6 MCA. At the Federal level, the legal basis for the program is contained in Title XIX of the Social Security Act and Title 42 of the Code of Federal Regulations (CFR). The program is administered in accordance with the Administrative Rules of Montana (ARM), Title 37, Chapter 86.

Dual Eligibles
Clients who are covered by Medicare and Medicaid are often referred to as "dual eligibles."

Early and Periodic Screening, Diagnosis and Treatment (EPSDT)
This program provides Medicaid-covered children with comprehensive health screenings, diagnostic services, and treatment of health problems.

Emergency Medical Condition

A medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain, psychiatric disturbances and/or symptoms of substance abuse) such that the absence of immediate medical attention could reasonably be expected to result in:

- Placing the health of the individual (or, with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy;
- Serious impairment to bodily functions; or
- Serious dysfunction of any bodily organ or part; or

With respect to a pregnant woman who is having contractions:

- That there is inadequate time to effect a safe transfer to another hospital before delivery; or
- That transfer may pose a threat to the health of safety of the woman or the unborn child.

Experimental

A non-covered item or service that researchers are studying to investigate how it affects health.

Fiscal Agent

ACS State Healthcare LLC is the fiscal agent for the State of Montana and processes claims at the Department's direction and in accordance with ARM 37.86 et seq.

Full Medicaid

Patients with Full Medicaid have a full scope of Medicaid benefits. See the *General Information For Providers* manual, *Appendix A: Medicaid Covered Services*.

Gross Adjustment

A lump sum debit or credit that is not claim specific made to a provider.

Indian Health Service (IHS)

IHS provides health services to American Indians and Alaska Natives.

Individual Adjustment

A request for a correction to a specific paid claim.

Investigational

A non-covered item or service that researchers are studying to investigate how it affects health.

Kiosk

A “room” or area in the Montana Virtual Human Services Pavilion (VHSP) website that contains information on the topic specified.

Mass Adjustment

Request for a correction to a group of claims meeting specific defined criteria.

Medicaid

A program that provides health care coverage to specific populations, especially low-income families with children, pregnant women, disabled people and the elderly. Medicaid is administered by state governments under broad federal guidelines.

Medicaid Eligibility and Payment System (MEPS)

A computer system by which providers may access a client’s eligibility, demographic, and claim status history information via the internet.

Medically Necessary
A term describing a requested service which is reasonably calculated to prevent, diagnose, correct, cure, alleviate or prevent worsening of conditions in the client. These conditions must be classified as one of the following: endanger life, cause suffering or pain, result in an illness or infirmity, threaten to cause or aggravate a handicap, or cause physical deformity or malfunction. There must be no other equally effective, more conservative or substantially less costly course of treatment available or suitable for the client requesting the service. For the purpose of this definition, "course of treatment" may include mere observation or, when appropriate, no treatment at all.

Medicare
The federal health insurance program for certain aged or disabled clients.

Mental Health Services Plan (MHSP)
This plan is for individuals who have a serious emotional disturbance (SED) or a severe and disabling mental illness (SDMI), are ineligible for Medicaid, and have a family income that does not exceed an amount established by the Department.

Mentally Incompetent
According to CFR 441.251, a mentally incompetent individual means an individual who has been declared mentally incompetent by a federal, state, or local court of competent jurisdiction for any purpose, unless the individual has been declared competent for purposes which include the ability to consent to sterilization.

Minimal Services
According to CPT 2001, when client's visit does not require the presence of the physician, but services are provided under the physician's supervision, they are considered minimal services. An example would be a patient returning for a monthly allergy shot.

Montana Breast and Cervical Cancer Treatment Program
This program provides Basic Medicaid coverage for women who have been screened through the Montana Breast and Cervical Health Program (MBCHP) and diagnosed with breast and/or cervical cancer or a pre-cancerous condition.

Mutually Exclusive Code Pairs
These codes represent services or procedures that, based on either the CPT-4 definition or standard medical practice, would not or could not reasonably be performed at the same session by the same provider on the same patient. Codes representing these services or procedures cannot be billed together.

Outpatient
A person who has not been admitted by a hospital as an inpatient, who is expected by the hospital to receive services in the hospital for less than 24 hours, who is registered on the hospital records as an outpatient, and who receives outpatient hospital services, other than supplies or prescription drugs alone, from the hospital.

Outpatient Hospital Services
Outpatient hospital services are those preventive, diagnostic, therapeutic, rehabilitative, palliative items or services provided to an outpatient by or under the direction of a physician, dentist, or other practitioner.

Packaged
Items or services that are deemed integral to performing a procedure or visit are not paid separately in the APC system. They are packaged (also called bundled) into the payment for the procedure or visit. Medicare developed the relative weights for surgical, medical and other types of visits so that the weights reflect the packaging rules used in the APC method. Items or services that are packaged receive a status code of "N".

PASSPORT To Health
A Medicaid managed care program where the client selects a primary care provider who manages the client's health care needs.

Prior Authorization (PA)
The approval process required before certain services or supplies are paid by Medicaid. Prior authorization must be obtained before providing the service or supply.

Private-pay
When a client chooses to pay for medical services out of his or her own pocket.

Protocols
Written plans developed by a public health clinic in collaboration with physician and nursing staff. Protocols specify nursing procedures to be followed in giving a specific exam, or providing care for particular conditions. Protocols must by updated and approved by a physician at least annually.

Provider or Provider of Service
An institution, agency, or person:

- Having a signed agreement with the Department to furnish medical care and goods and/or services to clients; and
- Eligible to receive payment from the Department.

Qualified Medicare Beneficiary (QMB)
QMB clients are clients for whom Medicaid pays their Medicare premiums and some or all of their Medicare coinsurance and deductibles.

Reference Lab Billing
Reference lab billing occurs when a Medicaid provider draws a specimen and sends it to a "reference lab" for processing. The reference lab then sends the results back to the Medicaid provider and bills the provider for the lab service. The Medicaid provider is then expected to bill Medicaid for the lab service. Medicaid does not cover lab services when they are billed by the referring provider.

Relative Value Scale (RVS)
A numerical scale designed to permit comparisons of appropriate prices for various services. The RVS is made up of the relative value units (RVUs) for all the objects in the class for which it is developed.

Relative Value Unit
The numerical value given to each service in a relative value scale.

Remittance Advice (RA)
The results of claims processing (including paid, denied, and pending claims) are listed on the RA.

Resource-Based Relative Value Scale (RBRVS)
A method of determining physicians' fees based on the time, training, skill, and other factors required to deliver various services.

Retroactive Eligibility
When a client is determined to be eligible for Medicaid effective prior to the current date.

Routine Podiatric Care
Routine podiatric care includes the cutting or removing of corns and calluses, the trimming and debridement of nails, the application of skin creams, and other hygienic, preventive maintenance care.

Sanction
The penalty for noncompliance with laws, rules, and policies regarding Medicaid. A sanction may include withholding payment from a provider or terminating Medicaid enrollment.

Special Health Services (SHS)
SHS or Children's Special Health Services (CSHS) assists children with special health care needs who are not eligible for Medicaid by paying medical costs, finding resources, and conducting clinics.

Specified Low-Income Medicare Beneficiaries (SLMB)
For these clients, Medicaid pays the Medicare premium only. They are not eligible for other Medicaid benefits, and must pay their own Medicare coinsurance and deductibles.

Spending Down
Clients with high medical expenses relative to their income can become eligible for Medicaid by "spending down" their income to specified levels. The client is responsible to pay for services received before eligibility begins, and Medicaid pays for remaining covered services.

Team Care
A utilization control program designed to educate clients on how to effectively use the Medicaid system. Team Care clients are managed by a "team" consisting of a PASSPORT PCP, one pharmacy, the Nurse First Advice Line, and Montana Medicaid.

Third Party Liability (TPL)
Any entity that is, or may be, liable to pay all or part of the medical cost of care for a Medicaid, MHSP or CHIP client.

Timely Filing
Providers must submit clean claims (claims that can be processed without additional information or documentation from or action by the provider) to Medicaid within the latest of

- 12 months from whichever is later:
    - the date of service
    - the date retroactive eligibility or disability is determined
- 6 months from the date on the Medicare explanation of benefits approving the service
- 6 months from the date on an adjustment notice from a third party payor who has previously processed the claim for the same service, and the adjustment notice is dated after the periods described above.

Usual and Customary
The fee that the provider most frequently charges the general public for a service or item.

Virtual Human Services Pavilion (VHSP)
This internet site contains a wealth of information about Human Services, Justice, Commerce, Labor & Industry, Education, voter registration, the Governor's Office, and Montana. http://vhsp.dphhs.state.mt.us
